Task card 1 Arc Length & Area of a Sector

Find the length of the highlighted arc. Leave your answer in terms of π.

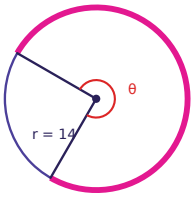

Task card 2 Arc Length & Area of a Sector

Find the area of the shaded sector. Leave your answer in terms of π.

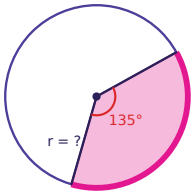

Task card 3 Arc Length & Area of a Sector

The highlighted arc has length 21π and the radius is 14. Find the central angle θ.

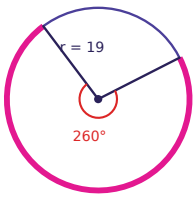

Task card 4 Arc Length & Area of a Sector

The shaded sector has area 96π and a central angle of 135°. Find the radius.

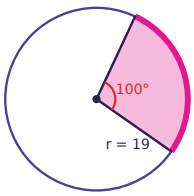

Task card 5 Arc Length & Area of a Sector

Find the length of the highlighted arc. Use π ≈ 3.14 and round to the nearest tenth.

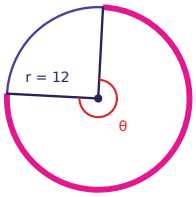

Task card 6 Arc Length & Area of a Sector

Find the area of the shaded sector. Use π ≈ 3.14 and round to the nearest tenth.

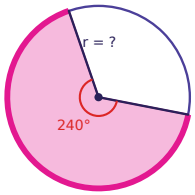

Task card 7 Arc Length & Area of a Sector

The highlighted arc has length 18π and the radius is 12. Find the central angle θ.

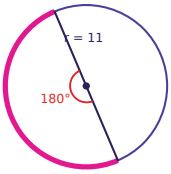

Task card 8 Arc Length & Area of a Sector

The shaded sector has area 24π and a central angle of 240°. Find the radius.

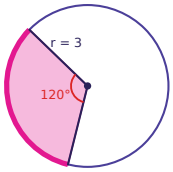

Task card 9 Arc Length & Area of a Sector

Find the length of the highlighted arc. Leave your answer in terms of π.

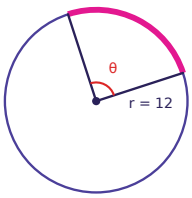

Task card 10 Arc Length & Area of a Sector

Find the area of the shaded sector. Leave your answer in terms of π.

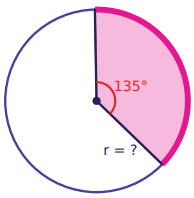

Task card 11 Arc Length & Area of a Sector

The highlighted arc has length 6π and the radius is 12. Find the central angle θ.

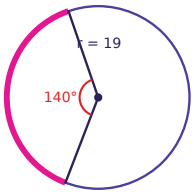

Task card 12 Arc Length & Area of a Sector

The shaded sector has area 54π and a central angle of 135°. Find the radius.

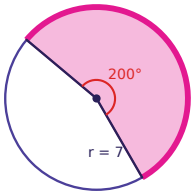

Task card 13 Arc Length & Area of a Sector

Find the length of the highlighted arc. Use π ≈ 3.14 and round to the nearest tenth.

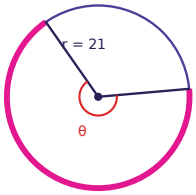

Task card 14 Arc Length & Area of a Sector

Find the area of the shaded sector. Use π ≈ 3.14 and round to the nearest tenth.

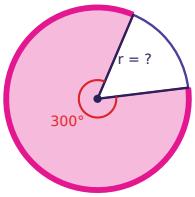

Task card 15 Arc Length & Area of a Sector

The highlighted arc has length 28π and the radius is 21. Find the central angle θ.

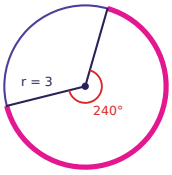

Task card 16 Arc Length & Area of a Sector

The shaded sector has area 270π and a central angle of 300°. Find the radius.

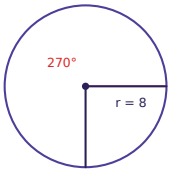

Task card 17 Arc Length & Area of a Sector

Find the length of the highlighted arc. Leave your answer in terms of π.

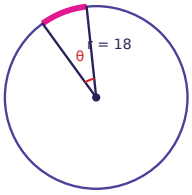

Task card 18 Arc Length & Area of a Sector

Find the area of the shaded sector. Leave your answer in terms of π.

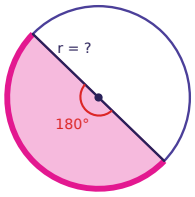

Task card 19 Arc Length & Area of a Sector

The highlighted arc has length 3π and the radius is 18. Find the central angle θ.

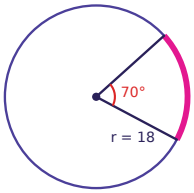

Task card 20 Arc Length & Area of a Sector

The shaded sector has area 200π and a central angle of 180°. Find the radius.

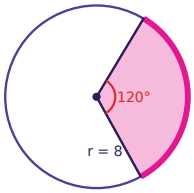

Task card 21 Arc Length & Area of a Sector

Find the length of the highlighted arc. Use π ≈ 3.14 and round to the nearest tenth.

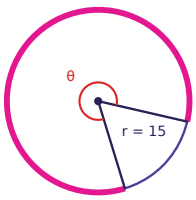

Task card 22 Arc Length & Area of a Sector

Find the area of the shaded sector. Use π ≈ 3.14 and round to the nearest tenth.

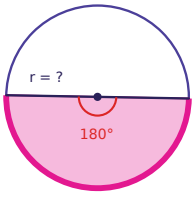

Task card 23 Arc Length & Area of a Sector

The highlighted arc has length 25π and the radius is 15. Find the central angle θ.

Task card 24 Arc Length & Area of a Sector

The shaded sector has area 18π and a central angle of 180°. Find the radius.

Arc Length & Area of a Sector Task Cards

Recording sheet · Grade 10 · Give answers in terms of π (like 6π) unless the problem says to use π ≈ 3.14; then round to the nearest tenth.
