Task card 1

Dot Plots: Standard Deviation

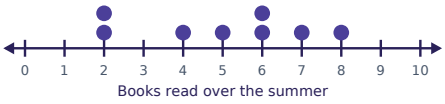

The dot plot shows the quiz score for 9 students. Each dot stands for one student. What is the population standard deviation of the data?

Task card 2

Dot Plots: Standard Deviation

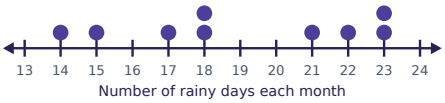

The dot plot shows the number of books read over the summer for 8 students. Each dot stands for one student. What is the population standard deviation of the data?

Task card 3

Dot Plots: Standard Deviation

The dot plot shows the number of rainy days for 9 months. Each dot stands for one month. What is the population standard deviation of the data?

Task card 4

Dot Plots: Standard Deviation

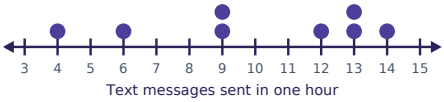

The dot plot shows the number of minutes the bus was late for 9 days. Each dot stands for one day. What is the population standard deviation of the data?

Task card 5

Dot Plots: Standard Deviation

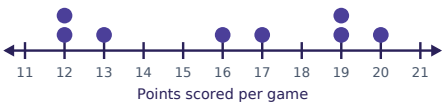

The dot plot shows the number of text messages sent in one hour for 8 teens. Each dot stands for one teen. What is the population standard deviation of the data?

Task card 6

Dot Plots: Standard Deviation

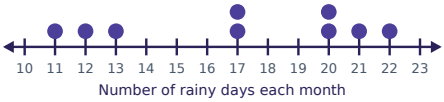

The dot plot shows the number of points scored for 8 games. Each dot stands for one game. What is the population standard deviation of the data?

Task card 7

Dot Plots: Standard Deviation

The dot plot shows the number of rainy days for 9 months. Each dot stands for one month. What is the population standard deviation of the data?

Task card 8

Dot Plots: Standard Deviation

The dot plot shows the number of goals scored for 9 matches. Each dot stands for one match. What is the population standard deviation of the data?

Task card 9

Dot Plots: Standard Deviation

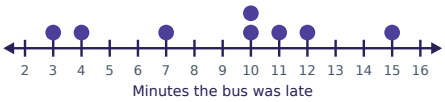

The dot plot shows the number of text messages sent in one hour for 9 teens. Each dot stands for one teen. What is the population standard deviation of the data?

Task card 10

Dot Plots: Standard Deviation

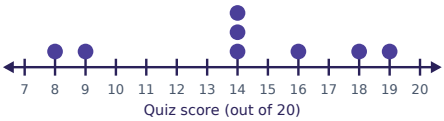

The dot plot shows the number of minutes the bus was late for 8 days. Each dot stands for one day. What is the population standard deviation of the data?

Task card 11

Dot Plots: Standard Deviation

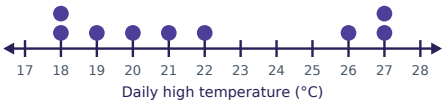

The dot plot shows the quiz score for 8 students. Each dot stands for one student. What is the population standard deviation of the data?

Task card 12

Dot Plots: Standard Deviation

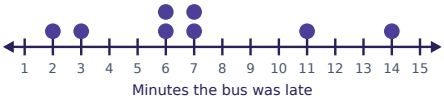

The dot plot shows the high temperature in °C for 9 days. Each dot stands for one day. What is the population standard deviation of the data?

Task card 13

Dot Plots: Standard Deviation

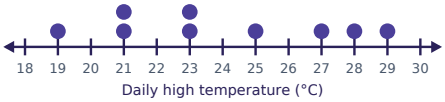

The dot plot shows the number of minutes the bus was late for 8 days. Each dot stands for one day. What is the population standard deviation of the data?

Task card 14

Dot Plots: Standard Deviation

The dot plot shows the high temperature in °C for 9 days. Each dot stands for one day. What is the population standard deviation of the data?

Task card 15

Dot Plots: Standard Deviation

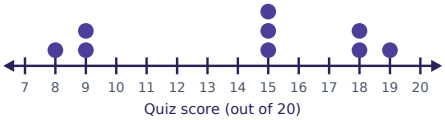

The dot plot shows the number of books read over the summer for 9 students. Each dot stands for one student. What is the population standard deviation of the data?

Task card 16

Dot Plots: Standard Deviation

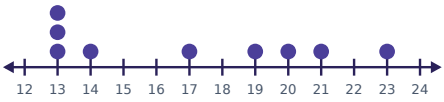

The dot plot shows the quiz score for 9 students. Each dot stands for one student. What is the population standard deviation of the data?

Task card 17

Dot Plots: Standard Deviation

The dot plot shows the number of rainy days for 9 months. Each dot stands for one month. What is the population standard deviation of the data?

Task card 18

Dot Plots: Standard Deviation

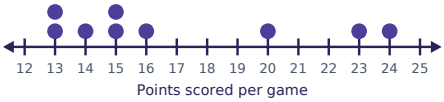

The dot plot shows the high temperature in °C for 9 days. Each dot stands for one day. What is the population standard deviation of the data?

Task card 19

Dot Plots: Standard Deviation

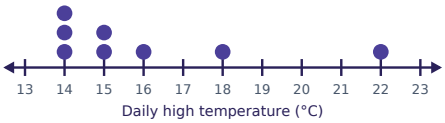

The dot plot shows the number of points scored for 9 games. Each dot stands for one game. What is the population standard deviation of the data?

Task card 20

Dot Plots: Standard Deviation

The dot plot shows the high temperature in °C for 8 days. Each dot stands for one day. What is the population standard deviation of the data?

Task card 21

Dot Plots: Standard Deviation

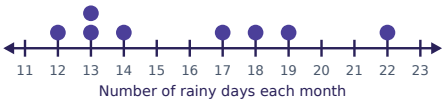

The dot plot shows the number of text messages sent in one hour for 9 teens. Each dot stands for one teen. What is the population standard deviation of the data?

Task card 22

Dot Plots: Standard Deviation

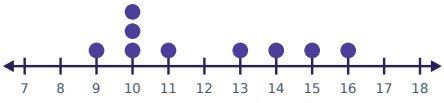

The dot plot shows the number of rainy days for 8 months. Each dot stands for one month. What is the population standard deviation of the data?

Task card 23

Dot Plots: Standard Deviation

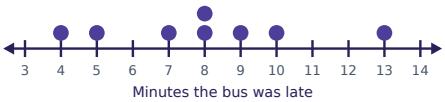

The dot plot shows the number of text messages sent in one hour for 9 teens. Each dot stands for one teen. What is the population standard deviation of the data?

Task card 24

Dot Plots: Standard Deviation

The dot plot shows the number of minutes the bus was late for 8 days. Each dot stands for one day. What is the population standard deviation of the data?

Dot Plots: Standard Deviation Task Cards

Recording sheet · Grade 10 · Find the population standard deviation: divide the sum of the squared differences from the mean by n, the number of values, then take the square root. Round to the nearest tenth.
