Task card 1 Geometric Probability

A dart lands at a random point on the circular target. The circles have radii 4, 5 and 9. Find the probability that it lands in the shaded ring.

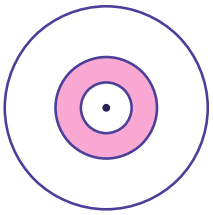

Task card 2 Geometric Probability

A point is chosen at random on AD. Find the probability that it lies on BD.

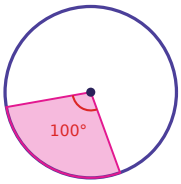

Task card 3 Geometric Probability

A dart lands at a random point on the circular target. The circles have radii 1, 2 and 4. Find the probability that it lands in the shaded ring.

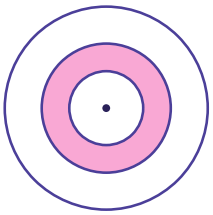

Task card 4 Geometric Probability

The shaded sector of the spinner has a central angle of 100°. Find the probability that the spinner lands in the shaded sector.

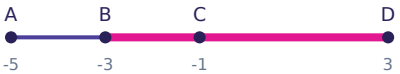

Task card 5 Geometric Probability

A dart lands at a random point on the circular target. The circles have radii 4, 7 and 11. Find the probability that it lands in the shaded ring.

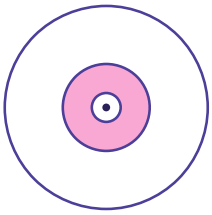

Task card 6 Geometric Probability

A point is chosen at random on AD. Find the probability that it lies on BD.

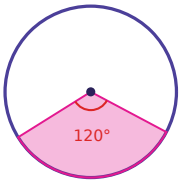

Task card 7 Geometric Probability

A dart lands at a random point on the circular target. The circles have radii 1, 3 and 7. Find the probability that it lands in the shaded ring.

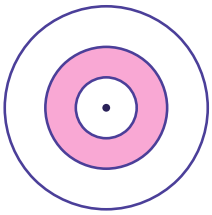

Task card 8 Geometric Probability

The shaded sector of the spinner has a central angle of 120°. Find the probability that the spinner lands in the shaded sector.

Task card 9 Geometric Probability

A dart lands at a random point on the circular target. The circles have radii 3, 6 and 10. Find the probability that it lands in the shaded ring.

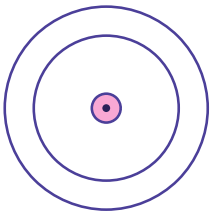

Task card 10 Geometric Probability

A point is chosen at random on AD. Find the probability that it lies on CD.

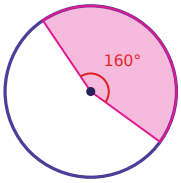

Task card 11 Geometric Probability

A dart lands at a random point on the circular target. The circles have radii 1, 5 and 7. Find the probability that it lands in the shaded center circle.

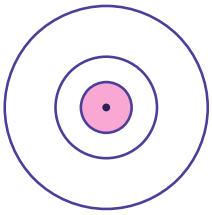

Task card 12 Geometric Probability

The shaded sector of the spinner has a central angle of 160°. Find the probability that the spinner lands in the shaded sector.

Task card 13 Geometric Probability

A dart lands at a random point on the circular target. The circles have radii 1, 2 and 4. Find the probability that it lands in the shaded center circle.

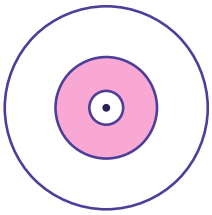

Task card 14 Geometric Probability

A point is chosen at random on AD. Find the probability that it lies on BD.

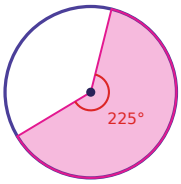

Task card 15 Geometric Probability

A dart lands at a random point on the circular target. The circles have radii 1, 3 and 6. Find the probability that it lands in the shaded ring.

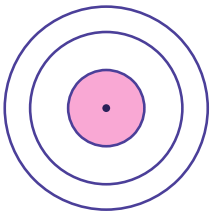

Task card 16 Geometric Probability

The shaded sector of the spinner has a central angle of 225°. Find the probability that the spinner lands in the shaded sector.

Task card 17 Geometric Probability

A dart lands at a random point on the circular target. The circles have radii 3, 6 and 8. Find the probability that it lands in the shaded center circle.

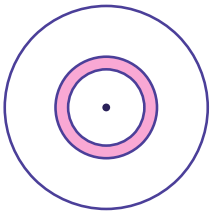

Task card 18 Geometric Probability

A point is chosen at random on AD. Find the probability that it lies on AC.

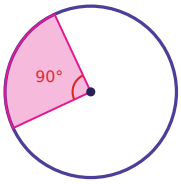

Task card 19 — Geometric Probability

A dart lands at a random point on the circular target. The circles have radii 3, 4 and 8. Find the probability that it lands in the shaded ring.

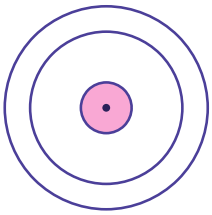

Task card 20 — Geometric Probability

The shaded sector of the spinner has a central angle of 90°. Find the probability that the spinner lands in the shaded sector.

Task card 21 — Geometric Probability

A dart lands at a random point on the circular target. The circles have radii 1, 3 and 4. Find the probability that it lands in the shaded center circle.

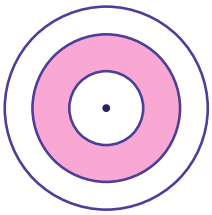

Task card 22 — Geometric Probability

A point is chosen at random on AD. Find the probability that it lies on CD.

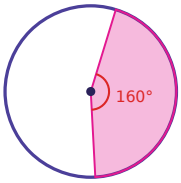

Task card 23 — Geometric Probability

A dart lands at a random point on the circular target. The circles have radii 4, 8 and 11. Find the probability that it lands in the shaded ring.

Task card 24 — Geometric Probability

The shaded sector of the spinner has a central angle of 160°. Find the probability that the spinner lands in the shaded sector.

Geometric Probability Task Cards

Recording sheet · Grade 10 · Write probabilities as fractions in simplest form. When π is used, use π ≈ 3.14 and round to the nearest hundredth.

Name: _____ Date: _____

Scan to check your answers

1	2	3	4
5	6	7	8
9	10	11	12
13	14	15	16
17	18	19	20
21	22	23	24

Geometric Probability Task Cards: Answer Key
