Unit Fractions · 1

The shape is cut into equal parts. What unit fraction names the shaded part?

Unit Fractions · 2

The shaded part shows $\frac{2}{2}$. How many copies of $\frac{1}{2}$ is that?

Unit Fractions · 3

Compare: $\frac{1}{8}$ ___ $\frac{1}{4}$. Write >, <, or =.

Unit Fractions · 4

This piece is $\frac{1}{6}$ of a whole bar. How many of these pieces make the whole bar?

whole bar

Unit Fractions · 5

Put together 3 pieces that are each $\frac{1}{4}$ of the same whole. What fraction of the whole is that?

Unit Fractions · 6

Two same-size pizzas are cut into equal slices. One pizza has 4 slices and the other has 8 slices. Which slice is smaller: $\frac{1}{4}$ or $\frac{1}{8}$? Write the fraction.

Unit Fractions · 7

The shape is cut into equal parts. What unit fraction names the shaded part?

Unit Fractions · 8

The shaded part shows $\frac{8}{8}$. How many copies of $\frac{1}{8}$ is that?

Unit Fractions · 2

ANSWER

2

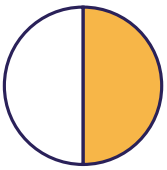
Unit Fractions · 7

ANSWER

$\frac{1}{8}$

Unit Fractions · 9

The shape is cut into equal parts. What unit fraction names the shaded part?



Unit Fractions · 10

The shaded part shows $\frac{3}{3}$. How many copies of $\frac{1}{3}$ is that?

Unit Fractions · 11

Compare: $\frac{1}{3}$ ___ $\frac{1}{6}$. Write >, <, or =.

Unit Fractions · 12

This piece is $\frac{1}{2}$ of a whole bar. How many of these pieces make the whole bar?

whole bar

Unit Fractions · 13

Put together 2 pieces that are each $\frac{1}{3}$ of the same whole. What fraction of the whole is that?

Unit Fractions · 14

Two same-size pizzas are cut into equal slices. One pizza has 6 slices and the other has 2 slices. Which slice is smaller: $\frac{1}{6}$ or $\frac{1}{2}$? Write the fraction.

Unit Fractions · 15

The shaded part shows $\frac{6}{8}$. How many copies of $\frac{1}{8}$ is that?

Unit Fractions · 16

The shape is cut into equal parts. What unit fraction names the shaded part?

Unit Fractions · 10

ANSWER

3
