Task card 1 Introduction to Limits

Find the limit: lim(x→0) of 2x - 1

Task card 2 Introduction to Limits

Find the limit: lim(x→5) of 3x - 4

Task card 3 Introduction to Limits

Find the limit: lim(x→1) of 3x - 5

Task card 4 Introduction to Limits

Find the limit: lim(x→-1) of 5x + 7

Task card 5 Introduction to Limits

Find the limit: lim(x→-2) of 2x - 1

Task card 6 Introduction to Limits

Find the limit: lim(x→6) of 3x + 4

Task card 7 Introduction to Limits

Find the limit: lim(x→-3) of 2x - 7

Task card 8 Introduction to Limits

Find the limit: lim(x→1) of 6x + 4

Task card 9 Introduction to Limits

Find the limit: lim(x→-4) of 4x - 6

Task card 10 Introduction to Limits

Find the limit: lim(x→-3) of 6x + 7

Task card 11 Introduction to Limits

Find the limit: lim(x→-2) of x + 8

Task card 12 Introduction to Limits

Find the limit: lim(x→-1) of 5x - 1

Task card 13 Introduction to Limits

Find the limit: lim(x→1) of 2x - 3

Task card 14 Introduction to Limits

Find the limit: lim(x→2) of 2x + 6

Task card 15 Introduction to Limits

Find the limit: lim(x→3) of 5x - 1

Task card 16 Introduction to Limits

Find the limit: lim(x→2) of 5x + 4

Task card 17 Introduction to Limits

Find the limit: lim(x→2) of 4x - 4

Task card 18 Introduction to Limits

Find the limit: lim(x→-6) of x

Task card 19 Introduction to Limits

Find the limit: lim(x→0) of 3x + 2

Task card 20 Introduction to Limits

Find the limit: lim(x→5) of x + 4

Task card 21 Introduction to Limits

Find the limit: lim(x→6) of 4x + 1

Task card 22 Introduction to Limits

Find the limit: lim(x→-4) of 2x + 2

Task card 23 Introduction to Limits

Find the limit: lim(x→2) of x - 3

Task card 24 Introduction to Limits

Find the limit: lim(x→-5) of 4x - 5

Introduction to Limits Task Cards

Recording sheet · Grade 12 · Evaluate each limit. These functions are continuous everywhere, so the limit equals the function value at that point (direct substitution).
