How many inches longer is the red ribbon than the blue ribbon?

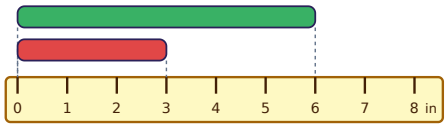

Task card 3 Comparing Lengths with a Ruler

How many centimeters longer is the green worm than the orange worm?

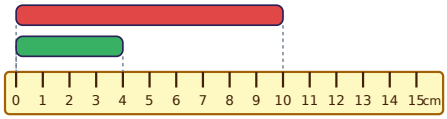

Task card 4 Comparing Lengths with a Ruler

How many inches longer is the green string than the red string?

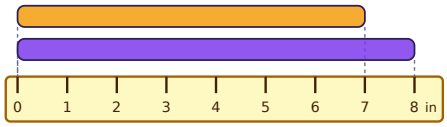

Task card 5 Comparing Lengths with a Ruler

How many centimeters longer is the red worm than the green worm?

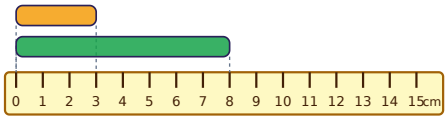

Task card 6 Comparing Lengths with a Ruler

How many inches longer is the purple straw than the orange straw?

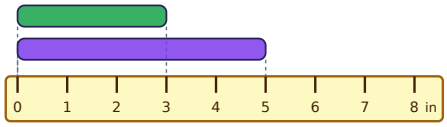

Task card 7 Comparing Lengths with a Ruler

How many centimeters longer is the green crayon than the orange crayon?

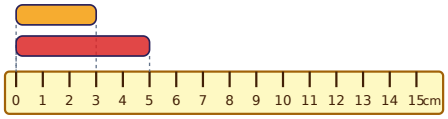

Task card 8 Comparing Lengths with a Ruler

The purple straw and the green straw are put end to end. How long are they together, in inches?

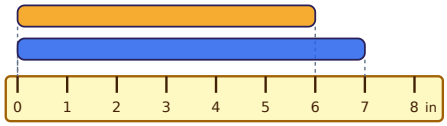

Task card 9 Comparing Lengths with a Ruler

How many centimeters longer is the red ribbon than the orange ribbon?

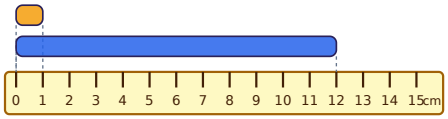

Task card 10 Comparing Lengths with a Ruler

How many inches longer is the blue worm than the orange worm?

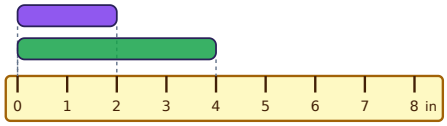

Task card 11 Comparing Lengths with a Ruler

How many centimeters longer is the blue string than the orange string?

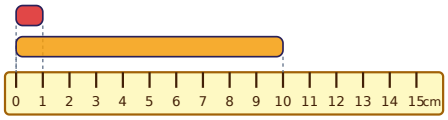

Task card 12 Comparing Lengths with a Ruler

The green ribbon and the purple ribbon are put end to end. How long are they together, in inches?

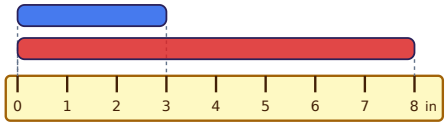

Task card 13 Comparing Lengths with a Ruler

How many centimeters longer is the orange ribbon than the red ribbon?

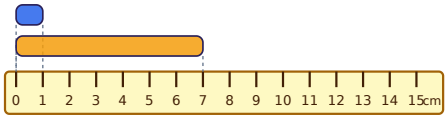

Task card 14 Comparing Lengths with a Ruler

How many inches longer is the red string than the blue string?

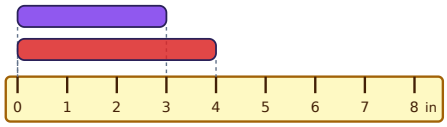

Task card 15 Comparing Lengths with a Ruler

How many centimeters longer is the orange crayon than the blue crayon?

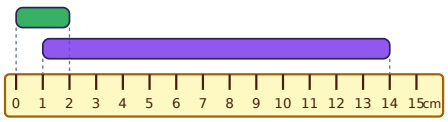

Task card 16 Comparing Lengths with a Ruler

The red string and the purple string are put end to end. How long are they together, in inches?

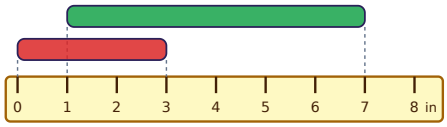

Task card 17 Comparing Lengths with a Ruler

The purple string and the green string are put end to end. How long are they together, in centimeters?

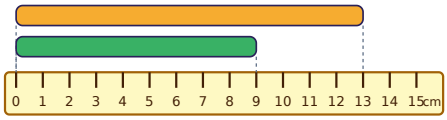

Task card 18 Comparing Lengths with a Ruler

How many inches longer is the green ribbon than the red ribbon?

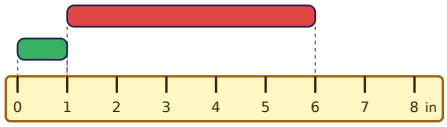

Task card 19 Comparing Lengths with a Ruler

How many centimeters longer is the orange ribbon than the green ribbon?

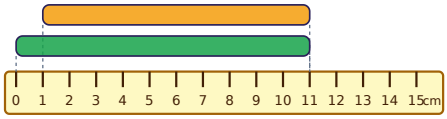

Task card 20 Comparing Lengths with a Ruler

The red crayon and the green crayon are put end to end. How long are they together, in inches?

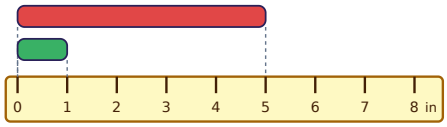

Task card 21 Comparing Lengths with a Ruler

How many centimeters longer is the green ribbon than the orange ribbon?

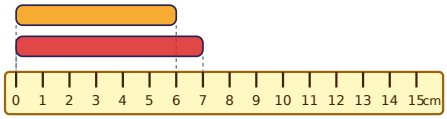

Task card 22 Comparing Lengths with a Ruler

The red worm and the green worm are put end to end. How long are they together, in inches?

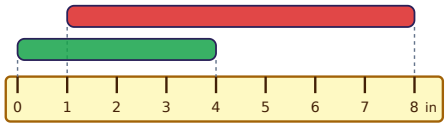

Task card 23 Comparing Lengths with a Ruler

How many centimeters longer is the red string than the orange string?

Task card 24 Comparing Lengths with a Ruler

How many inches longer is the red crayon than the green crayon?

Comparing Lengths with a Ruler Task Cards

Recording sheet · Grade 2 · Measure both objects with the ruler, then answer the question.

Name: _____ Date: _____
