Subtracting Integers · 1

4 - 5 = ___

Subtracting Integers · 2

Rewrite 4 - 6 as adding the opposite, then find the answer.

Subtracting Integers · 3

5 - ___ = -3

Subtracting Integers · 4

How far apart are 1 and 3 on a number line?

Subtracting Integers · 5

Compare using <, >, or =: 4 - 8 ___ -6

Subtracting Integers · 6

At 6 p.m. the temperature was 10°F. At midnight it was 4°F. By how many degrees did it change? (Use a negative number if it got colder.)

Subtracting Integers · 7

Lily says 5 - 8 = 3. What is the correct answer?

Subtracting Integers · 8

3 - 10 - (-8) = ___

Subtracting Integers · 2

ANSWER

-2

Subtracting Integers · 1

ANSWER

-1

Subtracting Integers · 4

ANSWER

2

Subtracting Integers · 3

ANSWER

8

Subtracting Integers · 6

ANSWER

-6

Subtracting Integers · 5

ANSWER

>

Subtracting Integers · 8

ANSWER

1

Subtracting Integers · 7

ANSWER

-3

Subtracting Integers · 9

(-4) - 4 = ___

Subtracting Integers · 10

Rewrite (-2) - 10 as adding the opposite, then find the answer.

Subtracting Integers · 11

(-10) - ___ = -13

Subtracting Integers · 12

How far apart are -4 and 7 on a number line?

Subtracting Integers · 13

Compare using <, >, or =: (-2) - 2 ___ 0

Subtracting Integers · 14

The temperature was -10°F. Then it dropped 7 degrees. What is the temperature now, in °F?

Subtracting Integers · 15

Sam says (-6) - 5 = -1. What is the correct answer?

Subtracting Integers · 16

(-6) - 8 - (-3) = ___

Subtracting Integers · 10

ANSWER

-12

Subtracting Integers · 9

ANSWER

-8

Subtracting Integers · 12

ANSWER

11

Subtracting Integers · 11

ANSWER

3

Subtracting Integers · 14

ANSWER

-17

Subtracting Integers · 13

ANSWER

<

Subtracting Integers · 16

ANSWER

-11

Subtracting Integers · 15

ANSWER

-11

Subtracting Integers · 17

6 - (-7) = ___

Subtracting Integers · 18

Rewrite 3 - (-9) as adding the opposite, then find the answer.

Subtracting Integers · 19

1 - ___ = 7

Subtracting Integers · 20

How far apart are 5 and -1 on a number line?

Subtracting Integers · 21

Compare using <, >, or =: 9 - (-8) ___ 17

Subtracting Integers · 22

At 6 p.m. the temperature was -8°F. At midnight it was 2°F. By how many degrees did it change? (Use a negative number if it got colder.)

Subtracting Integers · 23

Is 1 - (-8) = -7? Write yes or no.

Subtracting Integers · 24

3 - (-4) - (-3) = ___

Subtracting Integers · 18

ANSWER

12

Subtracting Integers · 17

ANSWER

13

Subtracting Integers · 20

ANSWER

6

Subtracting Integers · 19

ANSWER

-6

Subtracting Integers · 22

ANSWER

10

Subtracting Integers · 21

ANSWER

=

Subtracting Integers · 24

ANSWER

10

Subtracting Integers · 23

ANSWER

no
