Writing Expressions from Words · 1

Write an expression for: the product of 2 and t.

Writing Expressions from Words · 2

Write an expression for: 8 times m.

Writing Expressions from Words · 3

Write an expression for: the sum of k and 10.

Writing Expressions from Words · 4

Write an expression for: t subtracted from 11.

Writing Expressions from Words · 5

Write an expression for: 2 times m.

Writing Expressions from Words · 6

Write an expression for: 8 more than t.

Writing Expressions from Words · 7

Write an expression for: the quotient of t and 7.

Writing Expressions from Words · 8

Write an expression for: 3 times x.

Writing Expressions from Words · 2

**ANSWER**

**8m**

Writing Expressions from Words · 1

**ANSWER**

**2t**

Writing Expressions from Words · 4

**ANSWER**

**11 - t**

Writing Expressions from Words · 3

**ANSWER**

**k + 10**

Writing Expressions from Words · 6

**ANSWER**

**t + 8**

Writing Expressions from Words · 5

**ANSWER**

**2m**

Writing Expressions from Words · 8

**ANSWER**

**3x**

Writing Expressions from Words · 7

**ANSWER**

$$\frac{t}{7}$$

Writing Expressions from Words · 9

Write an expression for: t increased by 5.

Writing Expressions from Words · 10

Write an expression for: t increased by 3.

Writing Expressions from Words · 11

Write an expression for: the sum of y and 5.

Writing Expressions from Words · 12

Write an expression for: x divided by 8.

Writing Expressions from Words · 13

Write an expression for: the sum of k and 7.

Writing Expressions from Words · 14

Write an expression for: 6 more than x.

Writing Expressions from Words · 15

Write an expression for: 12 times k.

Writing Expressions from Words · 16

Write an expression for: y increased by 12.

Writing Expressions from Words · 10

**ANSWER**

$t + 3$

Writing Expressions from Words · 9

**ANSWER**

$t + 5$

Writing Expressions from Words · 12

**ANSWER**

$\frac{x}{8}$

Writing Expressions from Words · 11

**ANSWER**

$y + 5$

Writing Expressions from Words · 14

**ANSWER**

$x + 6$

Writing Expressions from Words · 13

**ANSWER**

$k + 7$

Writing Expressions from Words · 16

**ANSWER**

$y + 12$

Writing Expressions from Words · 15

**ANSWER**

$12k$

Write an expression for: x subtracted from 2.

Write an expression for: the sum of t and 15.

Write an expression for: 13 more than 2 times k.

Write an expression for: m decreased by 8.

Write an expression for: 2 times the difference of t and 13.

Write an expression for: 11 more than m.

Maria is 4 years older than her brother, who is t years old. Write an expression for Maria's age.

Write an expression for: 12 more than 13 times y.

Writing Expressions from Words · 18

**ANSWER**

**t + 15**

Writing Expressions from Words · 17

**ANSWER**

**2 - x**

Writing Expressions from Words · 20

**ANSWER**

**m - 8**

Writing Expressions from Words · 19

**ANSWER**

**2k + 13**

Writing Expressions from Words · 22

**ANSWER**

**m + 11**

Writing Expressions from Words · 21

**ANSWER**

**2(t - 13)**

Writing Expressions from Words · 24

**ANSWER**

**13y + 12**

Writing Expressions from Words · 23

**ANSWER**

**t + 4**
