Rows, Columns & Squares · 1

Count the squares in each row, then add the rows: ___ + ___ + ___ + ___ + ___ = ? How many squares in all?

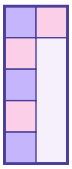

Rows, Columns & Squares · 2

Only the first row and the first column are drawn. If the whole rectangle is filled with same-size squares, how many squares will there be?

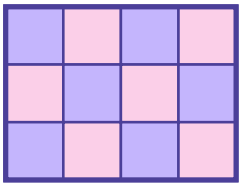

Rows, Columns & Squares · 3

Only the first row and the first column are drawn. If the whole rectangle is filled with same-size squares, how many squares will there be?

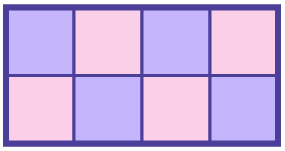

Rows, Columns & Squares · 4

This rectangle has 3 rows. If you add 1 more row of the same size, how many squares will there be in all?

Rows, Columns & Squares · 5

This rectangle has 2 rows. If you add 1 more row of the same size, how many squares will there be in all?

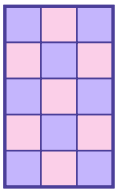

Rows, Columns & Squares · 6

Only the first row and the first column are drawn. If the whole rectangle is filled with same-size squares, how many squares will there be?

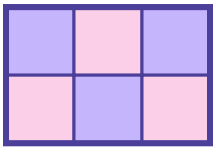

Rows, Columns & Squares · 7

This rectangle has 5 rows. If you add 1 more row of the same size, how many squares will there be in all?

Rows, Columns & Squares · 8

This rectangle has 2 rows. If you add 1 more row of the same size, how many squares will there be in all?

Rows, Columns & Squares · 2

ANSWER

20

Rows, Columns & Squares · 1

ANSWER

25

Rows, Columns & Squares · 4

ANSWER

16

Rows, Columns & Squares · 3

ANSWER

10

Rows, Columns & Squares · 6

ANSWER

12

Rows, Columns & Squares · 5

ANSWER

12

Rows, Columns & Squares · 8

ANSWER

9

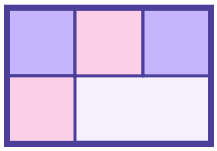

Rows, Columns & Squares · 7

ANSWER

18

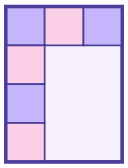

Rows, Columns & Squares · 9

Only the first row and the first column are drawn. If the whole rectangle is filled with same-size squares, how many squares will there be?

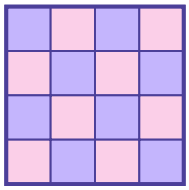

Rows, Columns & Squares · 10

Only the first row and the first column are drawn. If the whole rectangle is filled with same-size squares, how many squares will there be?

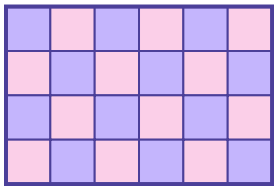

Rows, Columns & Squares · 11

This rectangle has 4 rows. If you add 1 more row of the same size, how many squares will there be in all?

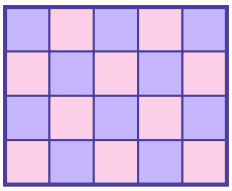

Rows, Columns & Squares · 12

This rectangle has 4 rows. If you add 1 more row of the same size, how many squares will there be in all?

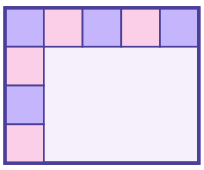

Rows, Columns & Squares · 13

Count the squares in each row, then add the rows: ___ + ___ + ___ + ___ = ? How many squares in all?

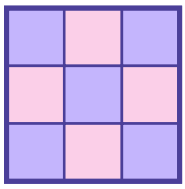

Rows, Columns & Squares · 14

Only the first row and the first column are drawn. If the whole rectangle is filled with same-size squares, how many squares will there be?

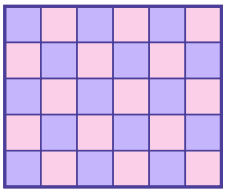

Rows, Columns & Squares · 15

This rectangle has 3 rows. If you add 1 more row of the same size, how many squares will there be in all?

Rows, Columns & Squares · 16

This rectangle has 5 rows. If you add 1 more row of the same size, how many squares will there be in all?

Rows, Columns & Squares · 10

ANSWER

12

Rows, Columns & Squares · 9

ANSWER

6

Rows, Columns & Squares · 12

ANSWER

30

Rows, Columns & Squares · 11

ANSWER

20

Rows, Columns & Squares · 14

ANSWER

20

Rows, Columns & Squares · 13

ANSWER

20

Rows, Columns & Squares · 16

ANSWER

36

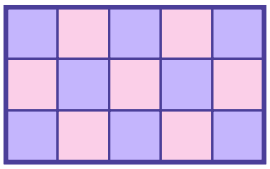

Rows, Columns & Squares · 15

ANSWER

12

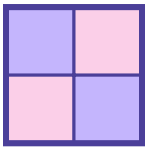

Rows, Columns & Squares · 17

Count the squares in each row, then add the rows: ___ + ___ + ___ = ? How many squares in all?

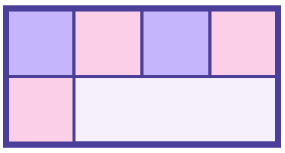

Rows, Columns & Squares · 18

This rectangle has 2 rows. If you add 1 more row of the same size, how many squares will there be in all?

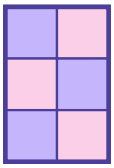

Rows, Columns & Squares · 19

Only the first row and the first column are drawn. If the whole rectangle is filled with same-size squares, how many squares will there be?

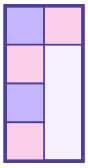

Rows, Columns & Squares · 20

Count the squares in each row, then add the rows: ___ + ___ + ___ = ? How many squares in all?

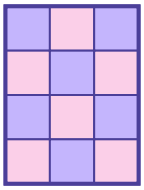

Rows, Columns & Squares · 21

Only the first row and the first column are drawn. If the whole rectangle is filled with same-size squares, how many squares will there be?

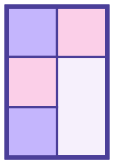

Rows, Columns & Squares · 22

This rectangle has 4 rows. If you add 1 more row of the same size, how many squares will there be in all?

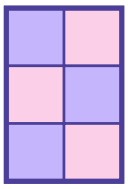

Rows, Columns & Squares · 23

Only the first row and the first column are drawn. If the whole rectangle is filled with same-size squares, how many squares will there be?

Rows, Columns & Squares · 24

This rectangle has 3 rows. If you add 1 more row of the same size, how many squares will there be in all?

Rows, Columns & Squares · 18

ANSWER

6

Rows, Columns & Squares · 17

ANSWER

15

Rows, Columns & Squares · 20

ANSWER

6

Rows, Columns & Squares · 19

ANSWER

8

Rows, Columns & Squares · 22

ANSWER

15

Rows, Columns & Squares · 21

ANSWER

8

Rows, Columns & Squares · 24

ANSWER

8

Rows, Columns & Squares · 23

ANSWER

6
