Solving Quadratic Equations Using Square Roots · 1

$3x^2 - 16 = 59$

Solving Quadratic Equations Using Square Roots · 2

$(x + 6)^2 = 1$

Solving Quadratic Equations Using Square Roots · 3

$x^2 = 25$

Solving Quadratic Equations Using Square Roots · 4

$3(x - 2)^2 + 12 = 204$

Solving Quadratic Equations Using Square Roots · 5

$2x^2 + 11 = 139$

Solving Quadratic Equations Using Square Roots · 6

$(x + 8)^2 = 81$

Solving Quadratic Equations Using Square Roots · 7

$x^2 = 81$

Solving Quadratic Equations Using Square Roots · 8

$4(x - 5)^2 + 10 = 206$

Solving Quadratic Equations Using Square Roots · 2

ANSWER

$x = -7$ or $x = -5$

Solving Quadratic Equations Using Square Roots · 1

ANSWER

$x = -5$ or $x = 5$

Solving Quadratic Equations Using Square Roots · 4

ANSWER

$x = -6$ or $x = 10$

Solving Quadratic Equations Using Square Roots · 3

ANSWER

$x = -5$ or $x = 5$

Solving Quadratic Equations Using Square Roots · 6

ANSWER

$x = -17$ or $x = 1$

Solving Quadratic Equations Using Square Roots · 5

ANSWER

$x = -8$ or $x = 8$

Solving Quadratic Equations Using Square Roots · 8

ANSWER

$x = -2$ or $x = 12$

Solving Quadratic Equations Using Square Roots · 7

ANSWER

$x = -9$ or $x = 9$

Solving Quadratic Equations Using Square Roots · 9

$3x^2 - 18 = 282$

Solving Quadratic Equations Using Square Roots · 10

$(x - 7)^2 = 25$

Solving Quadratic Equations Using Square Roots · 11

$3(x - 3)^2 + 2 = 50$

Solving Quadratic Equations Using Square Roots · 12

$x^2 = 82$

Solving Quadratic Equations Using Square Roots · 13

$5x^2 + 18 = 338$

Solving Quadratic Equations Using Square Roots · 14

$(x + 5)^2 = 25$

Solving Quadratic Equations Using Square Roots · 15

$3(x - 8)^2 + 1 = 109$

Solving Quadratic Equations Using Square Roots · 16

$x^2 = 23$

Solving Quadratic Equations Using Square Roots · 10

ANSWER

$x = 2$ or $x = 12$

Solving Quadratic Equations Using Square Roots · 9

ANSWER

$x = -10$ or $x = 10$

Solving Quadratic Equations Using Square Roots · 12

ANSWER

$x = -9.1$ or $x = 9.1$

Solving Quadratic Equations Using Square Roots · 11

ANSWER

$x = -1$ or $x = 7$

Solving Quadratic Equations Using Square Roots · 14

ANSWER

$x = -10$ or $x = 0$

Solving Quadratic Equations Using Square Roots · 13

ANSWER

$x = -8$ or $x = 8$

Solving Quadratic Equations Using Square Roots · 16

ANSWER

$x = -4.8$ or $x = 4.8$

Solving Quadratic Equations Using Square Roots · 15

ANSWER

$x = 2$ or $x = 14$

Solving Quadratic Equations Using Square Roots · 17

$2x^2 + 6 = 78$

Solving Quadratic Equations Using Square Roots · 18

$(x - 8)^2 = 81$

Solving Quadratic Equations Using Square Roots · 19

$4(x - 9)^2 + 6 = 406$

Solving Quadratic Equations Using Square Roots · 20

$x^2 = 50$

Solving Quadratic Equations Using Square Roots · 21

$2x^2 - 9 = 23$

Solving Quadratic Equations Using Square Roots · 22

$(x + 1)^2 = 1$

Solving Quadratic Equations Using Square Roots · 23

$3(x - 7)^2 + 1 = 193$

Solving Quadratic Equations Using Square Roots · 24

$x^2 = 33$

Solving Quadratic Equations Using Square Roots · 18

ANSWER

$x = -1$ or $x = 17$

Solving Quadratic Equations Using Square Roots · 17

ANSWER

$x = -6$ or $x = 6$

Solving Quadratic Equations Using Square Roots · 20

ANSWER

$x = -7.1$ or $x = 7.1$

Solving Quadratic Equations Using Square Roots · 19

ANSWER

$x = -1$ or $x = 19$

Solving Quadratic Equations Using Square Roots · 22

ANSWER

$x = -2$ or $x = 0$

Solving Quadratic Equations Using Square Roots · 21

ANSWER

$x = -4$ or $x = 4$

Solving Quadratic Equations Using Square Roots · 24

ANSWER

$x = -5.7$ or $x = 5.7$

Solving Quadratic Equations Using Square Roots · 23

ANSWER

$x = -1$ or $x = 15$
