Multiplying Decimals by Whole Numbers with Hundredths Grids · 1

Each color shows one group of 0.51. Count all the shaded squares: 2 × 0.51 = ___

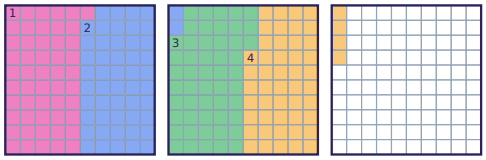

Multiplying Decimals by Whole Numbers with Hundredths Grids · 2

The grids show 4 equal groups in different colors, 2.32 in all. How much is one group? 4 × ___ = 2.32

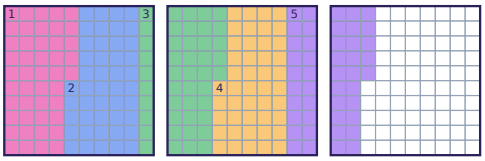

Multiplying Decimals by Whole Numbers with Hundredths Grids · 3

Each color shows one group of 0.51. Count all the shaded squares: 4 × 0.51 = ___

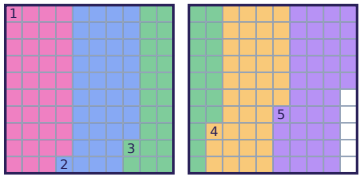

Multiplying Decimals by Whole Numbers with Hundredths Grids · 4

The grids show 5 equal groups in different colors, 2.25 in all. How much is one group? 5 × ___ = 2.25

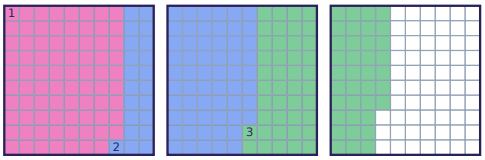

Multiplying Decimals by Whole Numbers with Hundredths Grids · 5

Each color shows one group of 0.39. Count all the shaded squares: 5 × 0.39 = ___

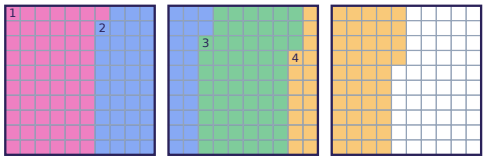

Multiplying Decimals by Whole Numbers with Hundredths Grids · 6

The grids show 3 equal groups in different colors, 2.37 in all. How much is one group? 3 × ___ = 2.37

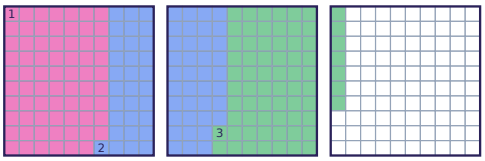

Multiplying Decimals by Whole Numbers with Hundredths Grids · 7

Each color shows one group of 0.61. Count all the shaded squares: 4 × 0.61 = ___

Multiplying Decimals by Whole Numbers with Hundredths Grids · 8

The grids show 3 equal groups in different colors, 2.07 in all. How much is one group? 3 × ___ = 2.07

Multiplying Decimals by Whole Numbers with Hundredths Grids · 2

ANSWER

0.58

Multiplying Decimals by Whole Numbers with Hundredths Grids · 1

ANSWER

1.02

Multiplying Decimals by Whole Numbers with Hundredths Grids · 4

ANSWER

0.45

Multiplying Decimals by Whole Numbers with Hundredths Grids · 3

ANSWER

2.04

Multiplying Decimals by Whole Numbers with Hundredths Grids · 6

ANSWER

0.79

Multiplying Decimals by Whole Numbers with Hundredths Grids · 5

ANSWER

1.95

Multiplying Decimals by Whole Numbers with Hundredths Grids · 8

ANSWER

0.69

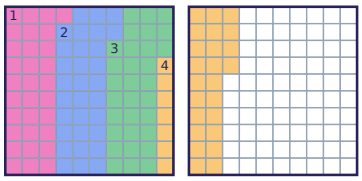

Multiplying Decimals by Whole Numbers with Hundredths Grids · 7

ANSWER

2.44

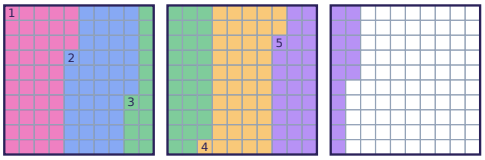

Multiplying Decimals by Whole Numbers with Hundredths Grids · 9

Each color shows one group of 0.31. Count all the shaded squares: 4 × 0.31 = ___

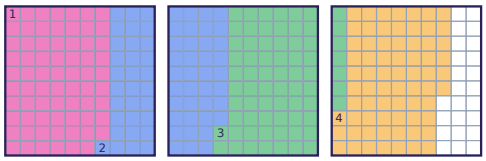

Multiplying Decimals by Whole Numbers with Hundredths Grids · 10

The grids show 5 equal groups in different colors, 2.15 in all. How much is one group? 5 × ___ = 2.15

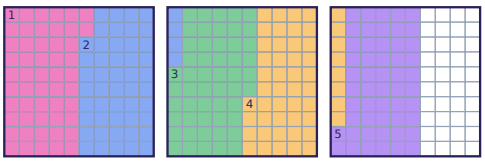

Multiplying Decimals by Whole Numbers with Hundredths Grids · 11

Each color shows one group of 0.69. Count all the shaded squares: 4 × 0.69 = ___

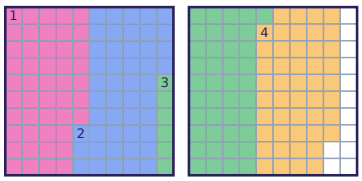

Multiplying Decimals by Whole Numbers with Hundredths Grids · 12

The grids show 5 equal groups in different colors, 2.6 in all. How much is one group? 5 × ___ = 2.6

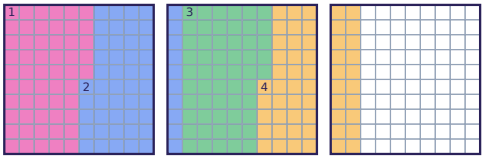

Multiplying Decimals by Whole Numbers with Hundredths Grids · 13

Each color shows one group of 0.47. Count all the shaded squares: 4 × 0.47 = ___

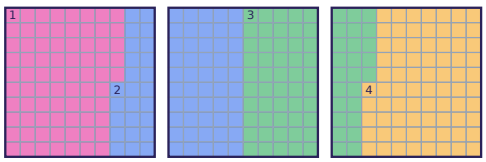

Multiplying Decimals by Whole Numbers with Hundredths Grids · 14

The grids show 4 equal groups in different colors, 2.2 in all. How much is one group? 4 × ___ = 2.2

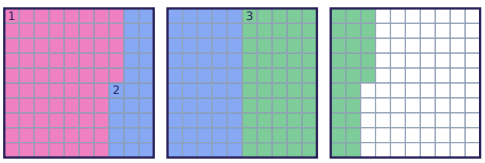

Multiplying Decimals by Whole Numbers with Hundredths Grids · 15

Each color shows one group of 0.75. Count all the shaded squares: 4 × 0.75 = ___

Multiplying Decimals by Whole Numbers with Hundredths Grids · 16

The grids show 3 equal groups in different colors, 2.25 in all. How much is one group? 3 × ___ = 2.25

Multiplying Decimals by Whole Numbers with Hundredths Grids · 10

ANSWER

0.43

Multiplying Decimals by Whole Numbers with Hundredths Grids · 9

ANSWER

1.24

Multiplying Decimals by Whole Numbers with Hundredths Grids · 12

ANSWER

0.52

Multiplying Decimals by Whole Numbers with Hundredths Grids · 11

ANSWER

2.76

Multiplying Decimals by Whole Numbers with Hundredths Grids · 14

ANSWER

0.55

Multiplying Decimals by Whole Numbers with Hundredths Grids · 13

ANSWER

1.88

Multiplying Decimals by Whole Numbers with Hundredths Grids · 16

ANSWER

0.75

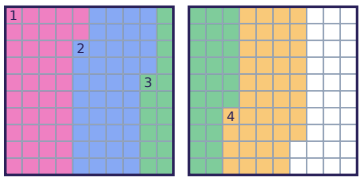

Multiplying Decimals by Whole Numbers with Hundredths Grids · 15

ANSWER

3

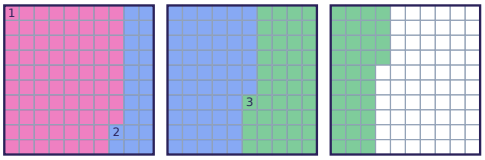

Multiplying Decimals by Whole Numbers with Hundredths Grids · 17

Each color shows one group of 0.42. Count all the shaded squares: 4 × 0.42 = ___

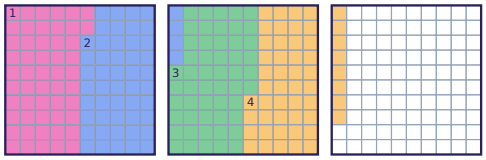

Multiplying Decimals by Whole Numbers with Hundredths Grids · 18

The grids show 3 equal groups in different colors, 2.34 in all. How much is one group? 3 × ___ = 2.34

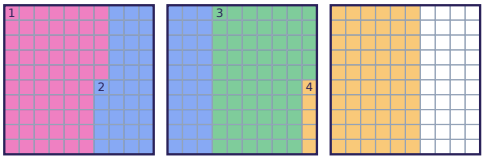

Multiplying Decimals by Whole Numbers with Hundredths Grids · 19

Each color shows one group of 0.52. Count all the shaded squares: 4 × 0.52 = ___

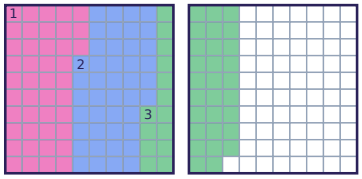

Multiplying Decimals by Whole Numbers with Hundredths Grids · 20

The grids show 4 equal groups in different colors, 2.6 in all. How much is one group? 4 × ___ = 2.6

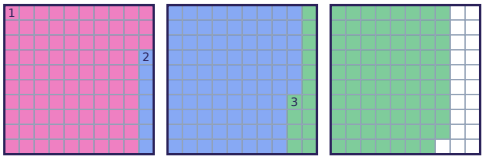

Multiplying Decimals by Whole Numbers with Hundredths Grids · 21

Each color shows one group of 0.43. Count all the shaded squares: 3 × 0.43 = ___

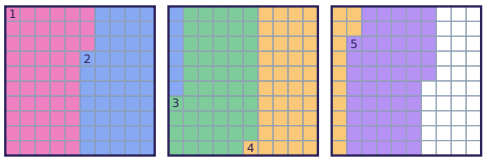

Multiplying Decimals by Whole Numbers with Hundredths Grids · 22

Each color shows one group of 0.93. Count all the shaded squares: 3 × 0.93 = ___

Multiplying Decimals by Whole Numbers with Hundredths Grids · 23

The grids show 5 equal groups in different colors, 2.65 in all. How much is one group? 5 × ___ = 2.65

Multiplying Decimals by Whole Numbers with Hundredths Grids · 18

ANSWER

0.78

Multiplying Decimals by Whole Numbers with Hundredths Grids · 17

ANSWER

1.68

Multiplying Decimals by Whole Numbers with Hundredths Grids · 20

ANSWER

0.65

Multiplying Decimals by Whole Numbers with Hundredths Grids · 19

ANSWER

2.08

Multiplying Decimals by Whole Numbers with Hundredths Grids · 22

ANSWER

2.79

Multiplying Decimals by Whole Numbers with Hundredths Grids · 21

ANSWER

1.29

Multiplying Decimals by Whole Numbers with Hundredths Grids · 23

ANSWER

0.53
