Task card 1 Dot Plots & Histograms

Each dot stands for one student. How many students are in the dot plot?

Task card 2 Dot Plots & Histograms

How many plants are in the 30-39 interval?

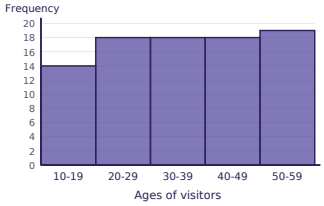

Task card 3 Dot Plots & Histograms

Each dot stands for one student. What is the mode? (The mode is the value with the most dots above it.)

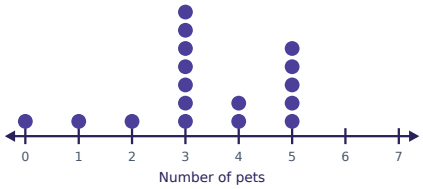

Task card 4 Dot Plots & Histograms

How many visitors are shown in the histogram in all?

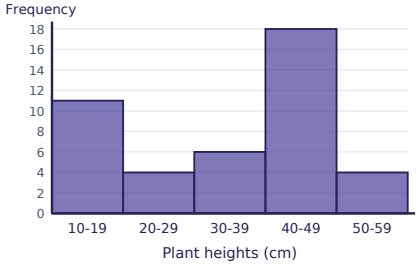

Task card 5 Dot Plots & Histograms

Each dot stands for one student. What is the median number of pets?

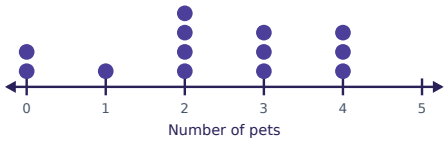

Task card 6 Dot Plots & Histograms

How many plants had a value of at least 20?

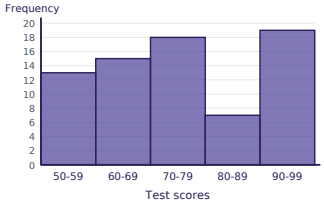

Task card 7 Dot Plots & Histograms

Each dot stands for one student. What is the range of the data? (Range = greatest value − least value.)

Task card 8 Dot Plots & Histograms

Which interval has the most data? Write the interval as it is labeled.

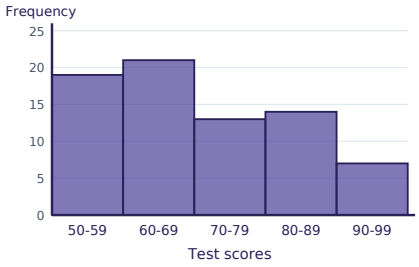

Task card 9 Dot Plots & Histograms

Each dot stands for one student. How many students are in the dot plot?

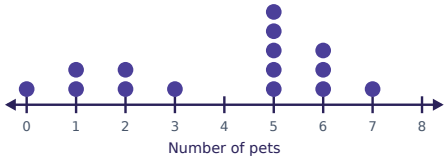

Task card 10 Dot Plots & Histograms

How many students are in the 80-89 interval?

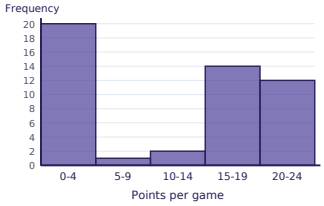

Task card 11 Dot Plots & Histograms

Each dot stands for one student. What is the mode? (The mode is the value with the most dots above it.)

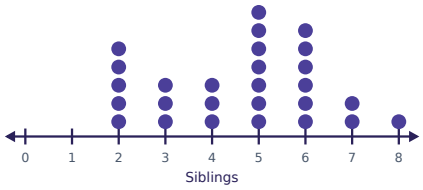

Task card 12 Dot Plots & Histograms

How many games are shown in the histogram in all?

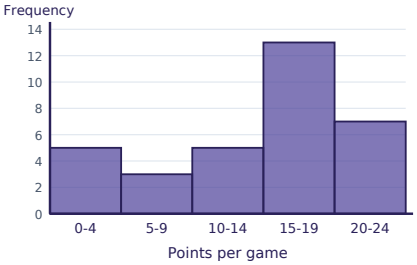

Task card 13 Dot Plots & Histograms

Each dot stands for one student. What is the median number of siblings?

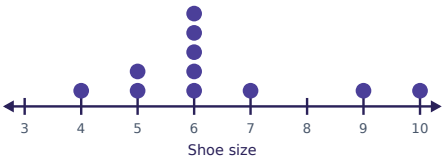

Task card 14 Dot Plots & Histograms

How many games had a value of at least 10?

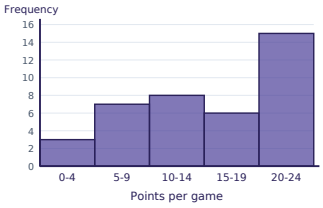

Task card 15 Dot Plots & Histograms

Each dot stands for one student. What is the range of the data? (Range = greatest value − least value.)

Task card 16 Dot Plots & Histograms

Which interval has the most data? Write the interval as it is labeled.

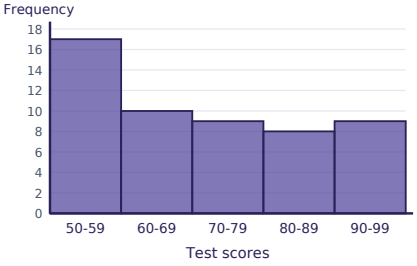

Task card 17 Dot Plots & Histograms

Each dot stands for one game. How many games are in the dot plot?

Task card 18 Dot Plots & Histograms

How many students are in the 70-79 interval?

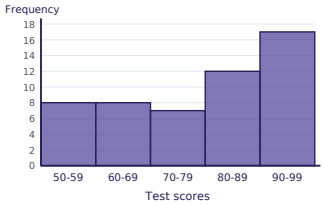

Task card 19 Dot Plots & Histograms

Each dot stands for one game. What is the mode? (The mode is the value with the most dots above it.)

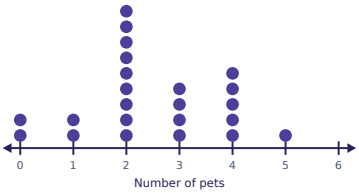

Task card 20 Dot Plots & Histograms

How many students are shown in the histogram in all?

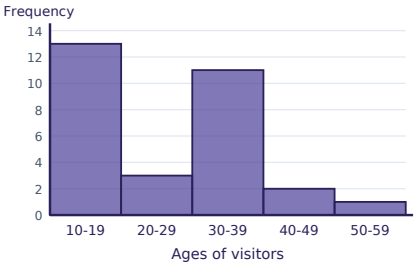

Task card 21 Dot Plots & Histograms

Each dot stands for one student. What is the median number of pets?

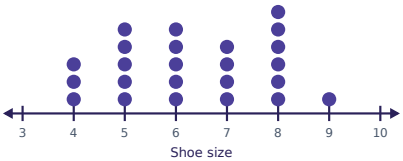

Task card 22 Dot Plots & Histograms

How many visitors had a value of at least 20?

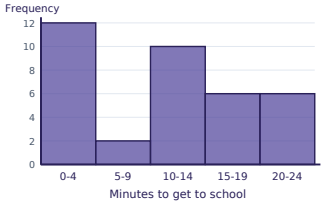

Task card 23 Dot Plots & Histograms

Each dot stands for one student. What is the range of the data? (Range = greatest value − least value.)

Task card 24 Dot Plots & Histograms

Which interval has the most data? Write the interval as it is labeled.
