Task card 1 Nets & Surface Area

The net folds into a rectangular prism. Find the surface area in square feet.

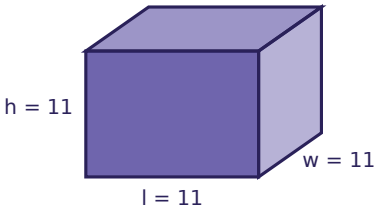

Task card 2 Nets & Surface Area

The box is measured in meters. Find its surface area in square meters.

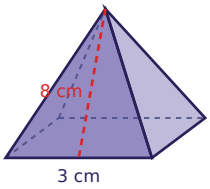

Task card 3 Nets & Surface Area

The cube is measured in meters. Find its surface area in square meters.

Task card 4 Nets & Surface Area

Find the surface area of the square pyramid in square centimeters.

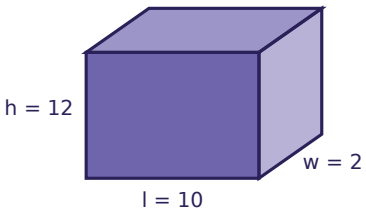

Task card 5 Nets & Surface Area

A net is made of 1 square and 4 triangles. What solid does it fold into? Choose: cube, rectangular prism, triangular prism, square pyramid, triangular pyramid.

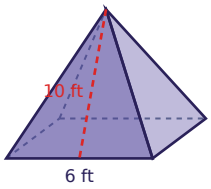

Task card 6 Nets & Surface Area

The box is measured in inches. Find its surface area in square inches.

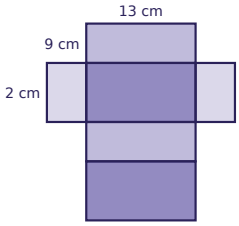

Task card 7 Nets & Surface Area

Find the surface area of the square pyramid in square feet.

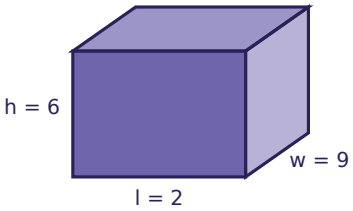

Task card 8 Nets & Surface Area

The net folds into a rectangular prism. Find the surface area in square centimeters.

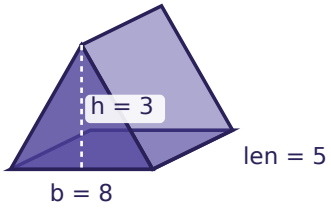

Task card 9 Nets & Surface Area

The box is measured in inches. Find its surface area in square inches.

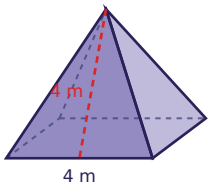

Task card 10 Nets & Surface Area

The triangular prism is measured in centimeters. Each slanted side of the triangle is 5 centimeters. Find the surface area in square centimeters.

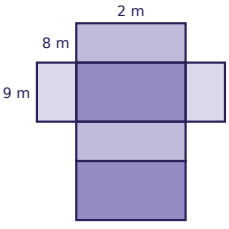

Task card 11 Nets & Surface Area

Find the surface area of the square pyramid in square meters.

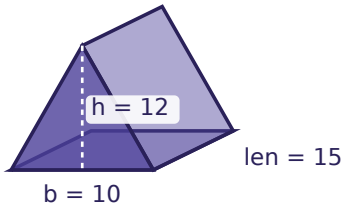

Task card 12 Nets & Surface Area

The net folds into a rectangular prism. Find the surface area in square meters.

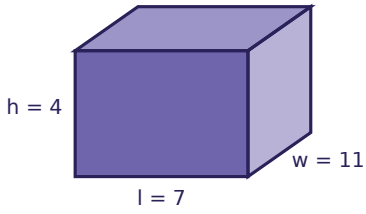

Task card 13 Nets & Surface Area

The triangular prism is measured in centimeters. Each slanted side of the triangle is 13 centimeters. Find the surface area in square centimeters.

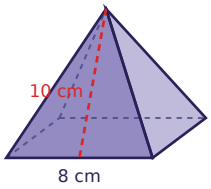

Task card 14 Nets & Surface Area

The box is measured in feet. Find its surface area in square feet.

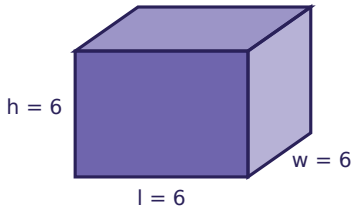

Task card 15 Nets & Surface Area

Find the surface area of the square pyramid in square centimeters.

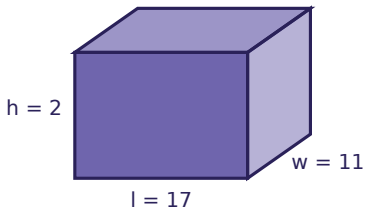

Task card 16 Nets & Surface Area

The cube is measured in feet. Find its surface area in square feet.

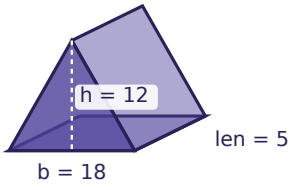

Task card 17 Nets & Surface Area

The box is measured in inches. Find its surface area in square inches.

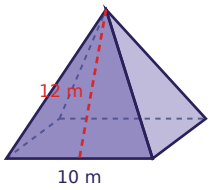

Task card 18 Nets & Surface Area

The triangular prism is measured in feet. Each slanted side of the triangle is 15 feet. Find the surface area in square feet.

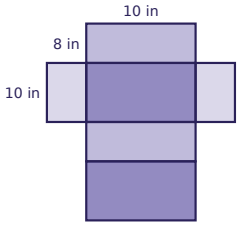

Task card 19 Nets & Surface Area

Find the surface area of the square pyramid in square meters.

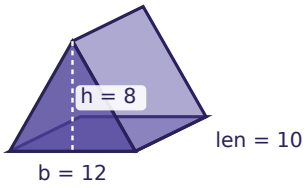

Task card 20 Nets & Surface Area

The net folds into a rectangular prism. Find the surface area in square inches.

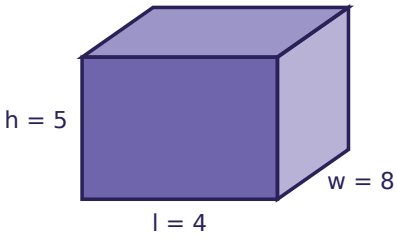

Task card 21 Nets & Surface Area

The triangular prism is measured in feet. Each slanted side of the triangle is 10 feet. Find the surface area in square feet.

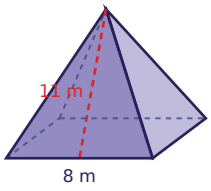

Task card 22 Nets & Surface Area

The box is measured in centimeters. Find its surface area in square centimeters.

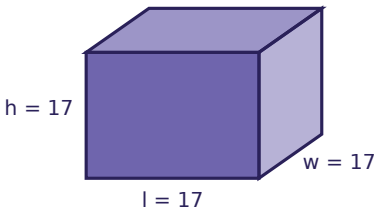

Task card 23 Nets & Surface Area

Find the surface area of the square pyramid in square meters.

Task card 24 Nets & Surface Area

The cube is measured in meters. Find its surface area in square meters.
