Subtracting Integers · 1

(-5) - (-7) = ___

Subtracting Integers · 2

Rewrite (-1) - (-7) as adding the opposite, then find the answer.

Subtracting Integers · 3

(-7) - ___ = 1

Subtracting Integers · 4

How far apart are -2 and -5 on a number line?

Subtracting Integers · 5

Compare using <, >, or =: (-1) - (-3) ___ 4

Subtracting Integers · 6

At 6 p.m. the temperature was -10°F. At midnight it was -5°F. By how many degrees did it change? (Use a negative number if it got colder.)

Subtracting Integers · 7

Is (-3) - (-4) = -7? Write yes or no.

Subtracting Integers · 8

(-5) - (-6) - (-2) = ___

Subtracting Integers · 2

ANSWER

6

Subtracting Integers · 1

ANSWER

2

Subtracting Integers · 4

ANSWER

3

Subtracting Integers · 3

ANSWER

-8

Subtracting Integers · 6

ANSWER

5

Subtracting Integers · 5

ANSWER

<

Subtracting Integers · 8

ANSWER

3

Subtracting Integers · 7

ANSWER

no

Subtracting Integers · 9

(-10) - 12 = ___

Subtracting Integers · 10

Rewrite 8 - 19 as adding the opposite, then find the answer.

Subtracting Integers · 11

(-2) - ___ = -19

Subtracting Integers · 12

How far apart are -16 and -1 on a number line?

Subtracting Integers · 13

Compare using <, >, or =: (-13) - (-12) ___ -25

Subtracting Integers · 14

Omar's bank balance is 10 dollars (a negative balance means money is owed). A fee of 15 dollars is taken out. What is the balance now, in dollars?

Subtracting Integers · 15

Is (-11) - 13 = 2? Write yes or no.

Subtracting Integers · 16

(-18) - 4 - 10 = ___

Subtracting Integers · 10

ANSWER

-11

Subtracting Integers · 9

ANSWER

-22

Subtracting Integers · 12

ANSWER

15

Subtracting Integers · 11

ANSWER

17

Subtracting Integers · 14

ANSWER

-5

Subtracting Integers · 13

ANSWER

>

Subtracting Integers · 16

ANSWER

-32

Subtracting Integers · 15

ANSWER

no

Subtracting Integers · 17

(-17) - 19 = ___

Subtracting Integers · 18

Rewrite (-15) - 16 as adding the opposite, then find the answer.

Subtracting Integers · 19

(-18) - ___ = -22

Subtracting Integers · 20

How far apart are 6 and -11 on a number line?

Subtracting Integers · 21

Compare using <, >, or =: 15 - (-11) ___ 28

Subtracting Integers · 22

At 6 p.m. the temperature was -16°F. At midnight it was 11°F. By how many degrees did it change? (Use a negative number if it got colder.)

Subtracting Integers · 23

Is 14 - (-9) = 23? Write yes or no.

Subtracting Integers · 24

1 - 13 - 20 = ___

Subtracting Integers · 18

ANSWER

-31

Subtracting Integers · 17

ANSWER

-36

Subtracting Integers · 20

ANSWER

17

Subtracting Integers · 19

ANSWER

4

Subtracting Integers · 22

ANSWER

27

Subtracting Integers · 21

ANSWER

<

Subtracting Integers · 24

ANSWER

-32

Subtracting Integers · 23

ANSWER

yes
