Subtracting Integers · 1

23 - (-37) = ___

Subtracting Integers · 2

Rewrite 48 - (-2) as adding the opposite, then find the answer.

Subtracting Integers · 3

35 - ___ = 37

Subtracting Integers · 4

How far apart are -12 and -36 on a number line?

Subtracting Integers · 5

Compare using <, >, or =: 1 - 38 ___ 39

Subtracting Integers · 6

At 6 p.m. the temperature was -40°F. At midnight it was -9°F. By how many degrees did it change? (Use a negative number if it got colder.)

Subtracting Integers · 7

Ava says (-50) - 14 = -36. What is the correct answer?

Subtracting Integers · 8

(-31) - 24 - (-42) = ___

Subtracting Integers · 2

ANSWER

50

Subtracting Integers · 1

ANSWER

60

Subtracting Integers · 4

ANSWER

24

Subtracting Integers · 3

ANSWER

-2

Subtracting Integers · 6

ANSWER

31

Subtracting Integers · 5

ANSWER

<

Subtracting Integers · 8

ANSWER

-13

Subtracting Integers · 7

ANSWER

-64

Subtracting Integers · 9

21 - (-54) = ___

Subtracting Integers · 10

Rewrite 77 - (-50) as adding the opposite, then find the answer.

Subtracting Integers · 11

34 - ___ = -34

Subtracting Integers · 12

How far apart are -90 and -1 on a number line?

Subtracting Integers · 13

Compare using <, >, or =: 53 - (-42) ___ 92

Subtracting Integers · 14

Zoe hikes from an elevation of 96 meters to 48 meters (below sea level is negative). What is the change in elevation, in meters? (Use a negative number if Zoe went down.)

Subtracting Integers · 15

Is (-32) - (-61) = -93? Write yes or no.

Subtracting Integers · 16

77 - 99 - (-38) = ___

Subtracting Integers · 10

ANSWER

127

Subtracting Integers · 9

ANSWER

75

Subtracting Integers · 12

ANSWER

89

Subtracting Integers · 11

ANSWER

68

Subtracting Integers · 14

ANSWER

-48

Subtracting Integers · 13

ANSWER

>

Subtracting Integers · 16

ANSWER

16

Subtracting Integers · 15

ANSWER

no

Subtracting Integers · 17

(-32) - (-29) = ___

Subtracting Integers · 18

Rewrite (-43) - (-5) as adding the opposite, then find the answer.

Subtracting Integers · 19

(-44) - ___ = -34

Subtracting Integers · 20

How far apart are -26 and 8 on a number line?

Subtracting Integers · 21

Compare using <, >, or =: (-47) - 45 ___ -2

Subtracting Integers · 22

Sam hikes from an elevation of -36 meters to 47 meters (below sea level is negative). What is the change in elevation, in meters? (Use a negative number if Sam went down.)

Subtracting Integers · 23

Ava says (-36) - (-34) = -70. What is the correct answer?

Subtracting Integers · 24

(-48) - (-3) - (-30) = ___

Subtracting Integers · 18

ANSWER

-38

Subtracting Integers · 17

ANSWER

-3

Subtracting Integers · 20

ANSWER

34

Subtracting Integers · 19

ANSWER

-10

Subtracting Integers · 22

ANSWER

83

Subtracting Integers · 21

ANSWER

<

Subtracting Integers · 24

ANSWER

-15

Subtracting Integers · 23

ANSWER

-2
