Adding & Subtracting Linear Expressions · 1

Simplify: (5x - 11) - (-2x + 10)

Adding & Subtracting Linear Expressions · 2

Simplify: (-x - 11) + (2x + 2)

Adding & Subtracting Linear Expressions · 3

Simplify: (5x - 4) - (7x - 11)

Adding & Subtracting Linear Expressions · 4

Subtract (5x + 5) from (8x + 5).

Adding & Subtracting Linear Expressions · 5

Simplify: (7x + 12) - (5x - 8)

Adding & Subtracting Linear Expressions · 6

Simplify: (7x + 12) + (6x + 5)

Adding & Subtracting Linear Expressions · 7

Simplify: (3x + 5) - (5x - 10)

Adding & Subtracting Linear Expressions · 8

Subtract (2x + 5) from (5x - 12).

Adding & Subtracting Linear Expressions · 2

ANSWER

x - 9

Adding & Subtracting Linear Expressions · 1

ANSWER

7x - 21

Adding & Subtracting Linear Expressions · 4

ANSWER

3x

Adding & Subtracting Linear Expressions · 3

ANSWER

-2x + 7

Adding & Subtracting Linear Expressions · 6

ANSWER

13x + 17

Adding & Subtracting Linear Expressions · 5

ANSWER

2x + 20

Adding & Subtracting Linear Expressions · 8

ANSWER

3x - 17

Adding & Subtracting Linear Expressions · 7

ANSWER

-2x + 15

Simplify: (10x - 1) - (3x + 7)

Simplify: (8x + 7) - 4(x - 12)

Simplify: (-6x + 8y) + (4x - 6y)

Subtract (10x - 5) from (3x - 1).

Simplify: 3(2x + 8) - 2(6x + 7)

Simplify: (9x - 11) - (x + 4)

Simplify: (-x + 12y) - (2x - 13y)

What expression must be added to (3x + 5) to get (x + 7)?

Adding & Subtracting Linear Expressions · 10

ANSWER

4x + 55

Adding & Subtracting Linear Expressions · 9

ANSWER

7x - 8

Adding & Subtracting Linear Expressions · 12

ANSWER

-7x + 4

Adding & Subtracting Linear Expressions · 11

ANSWER

-2x + 2y

Adding & Subtracting Linear Expressions · 14

ANSWER

8x - 15

Adding & Subtracting Linear Expressions · 13

ANSWER

-6x + 10

Adding & Subtracting Linear Expressions · 16

ANSWER

-2x + 2

Adding & Subtracting Linear Expressions · 15

ANSWER

-3x + 25y

Simplify: (-3x - 13) - (3x + 1)

Simplify: (5x + 12) - 3(-x + 11)

Simplify: (6x + 2y) - (5x + 8y)

Subtract (-9x - 8) from (4x - 14).

Simplify: 2(-9x + 11) - 3(-8x - 4)

Simplify: (4x + 11) - (-5x - 5)

Simplify: (6x + 8y) - (11x - 10y)

What expression must be added to (5x + 9) to get (4x - 4)?

Adding & Subtracting Linear Expressions · 18

ANSWER

8x - 21

Adding & Subtracting Linear Expressions · 17

ANSWER

-6x - 14

Adding & Subtracting Linear Expressions · 20

ANSWER

13x - 6

Adding & Subtracting Linear Expressions · 19

ANSWER

x - 6y

Adding & Subtracting Linear Expressions · 22

ANSWER

9x + 16

Adding & Subtracting Linear Expressions · 21

ANSWER

6x + 34

Adding & Subtracting Linear Expressions · 24

ANSWER

-x - 13

Adding & Subtracting Linear Expressions · 23

ANSWER

-5x + 18y
