Circles: Diameter Given – Find Area & Circumference · 1

A circle has diameter 11. Find the circumference.

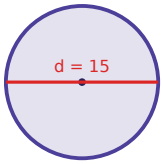

Circles: Diameter Given – Find Area & Circumference · 2

A circle has diameter 16. Find the area.

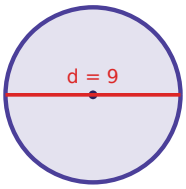

Circles: Diameter Given – Find Area & Circumference · 3

A circle has diameter 15. Find the radius.

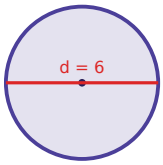

Circles: Diameter Given – Find Area & Circumference · 4

A circle has diameter 9. Find the circumference.

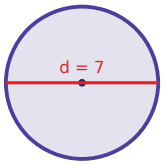

Circles: Diameter Given – Find Area & Circumference · 5

A circle has diameter 6. Find the area.

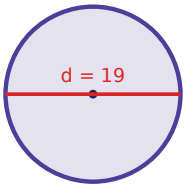

Circles: Diameter Given – Find Area & Circumference · 6

A circle has diameter 7. Find the radius.

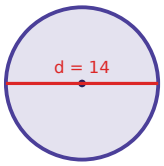

Circles: Diameter Given – Find Area & Circumference · 7

A circle has diameter 19. Find the circumference.

Circles: Diameter Given – Find Area & Circumference · 8

A circle has diameter 14. Find the area.

Circles: Diameter Given – Find Area & Circumference · 2

ANSWER

201

Circles: Diameter Given – Find Area & Circumference · 1

ANSWER

34.5

Circles: Diameter Given – Find Area & Circumference · 4

ANSWER

28.3

Circles: Diameter Given – Find Area & Circumference · 3

ANSWER

7.5

Circles: Diameter Given – Find Area & Circumference · 6

ANSWER

3.5

Circles: Diameter Given – Find Area & Circumference · 5

ANSWER

28.3

Circles: Diameter Given – Find Area & Circumference · 8

ANSWER

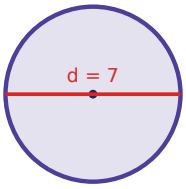

153.9

Circles: Diameter Given – Find Area & Circumference · 7

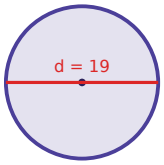

ANSWER

59.7

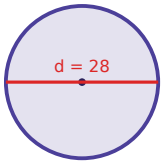

A circle has diameter 7. Find the circumference.

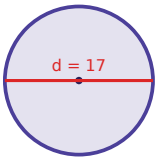

A circle has diameter 19. Find the area.

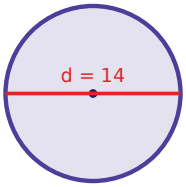

A circle has diameter 28. Find the radius.

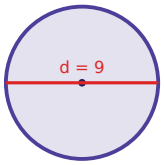

A circle has diameter 17. Find both the circumference and the area.

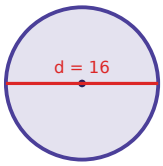

A circle has diameter 14. Find the circumference.

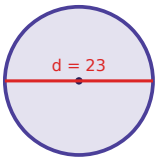

A circle has diameter 9. Find the area.

A circle has diameter 16. Find the radius.

A circle has diameter 23. Find both the circumference and the area.

Circles: Diameter Given – Find Area & Circumference · 10

ANSWER

283.4

Circles: Diameter Given – Find Area & Circumference · 9

ANSWER

22

Circles: Diameter Given – Find Area & Circumference · 12

ANSWER

C = 53.4, A = 226.9

Circles: Diameter Given – Find Area & Circumference · 11

ANSWER

14

Circles: Diameter Given – Find Area & Circumference · 14

ANSWER

63.6

Circles: Diameter Given – Find Area & Circumference · 13

ANSWER

44

Circles: Diameter Given – Find Area & Circumference · 16

ANSWER

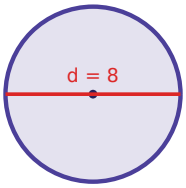

C = 72.2, A = 415.3

Circles: Diameter Given – Find Area & Circumference · 15

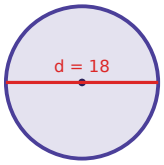

ANSWER

8

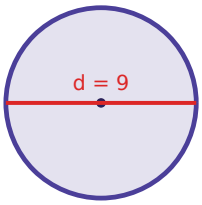

A circle has diameter 8. Find the circumference.

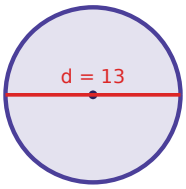

A circle has diameter 18. Find the radius.

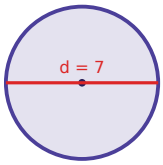

A circle has diameter 9. Find both the circumference and the area.

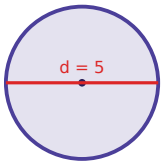

A circle has diameter 13. Find the circumference.

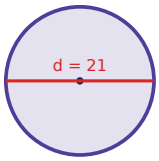

A circle has diameter 7. Find the area.

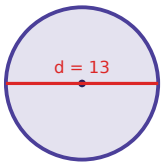

A circle has diameter 5. Find the radius.

A circle has diameter 21. Find both the circumference and the area.

A circle has diameter 13. Find the area.

Circles: Diameter Given – Find Area & Circumference · 18

ANSWER

9

Circles: Diameter Given – Find Area & Circumference · 17

ANSWER

25.1

Circles: Diameter Given – Find Area & Circumference · 20

ANSWER

40.8

Circles: Diameter Given – Find Area & Circumference · 19

ANSWER

C = 28.3, A = 63.6

Circles: Diameter Given – Find Area & Circumference · 22

ANSWER

2.5

Circles: Diameter Given – Find Area & Circumference · 21

ANSWER

38.5

Circles: Diameter Given – Find Area & Circumference · 24

ANSWER

132.7

Circles: Diameter Given – Find Area & Circumference · 23

ANSWER

C = 65.9, A = 346.2
