Cross Sections of 3D Figures · 1

A plane slices the cone perpendicular to its base, through its tip. What shape is the cross section? (circle, triangle, square, or rectangle)

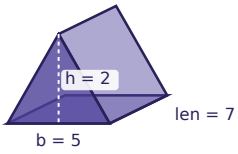

Cross Sections of 3D Figures · 2

A plane slices the square pyramid perpendicular to its base, through its tip. What shape is the cross section? (circle, triangle, square, or rectangle)

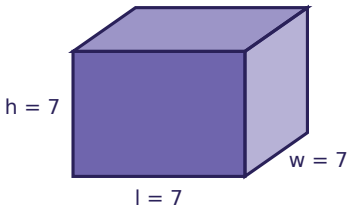

Cross Sections of 3D Figures · 3

A plane slices the triangular prism parallel to its triangular faces. What shape is the cross section? (circle, triangle, square, or rectangle)

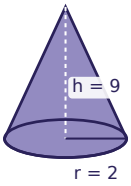

Cross Sections of 3D Figures · 4

A plane slices the cube parallel to one of its faces. What shape is the cross section? (circle, triangle, square, or rectangle)

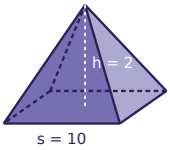

Cross Sections of 3D Figures · 5

A plane slices the cone parallel to its base. What shape is the cross section? (circle, triangle, square, or rectangle)

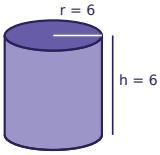

Cross Sections of 3D Figures · 6

A plane slices the square pyramid perpendicular to its base, through its tip, parallel to one side of the base. What is the area of the cross section in square units?

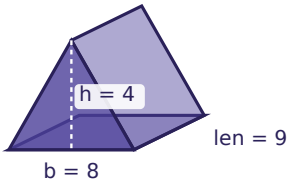

Cross Sections of 3D Figures · 7

A plane slices the cylinder perpendicular to its base, through the center of the base. What is the area of the cross section in square units?

Cross Sections of 3D Figures · 8

A plane slices the triangular prism parallel to its triangular faces. What is the area of the cross section in square units?

Cross Sections of 3D Figures · 9

A plane slices the sphere through its center. What shape is the cross section? (circle, triangle, square, or rectangle)

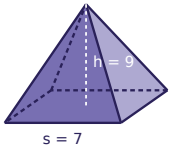

Cross Sections of 3D Figures · 10

A plane slices the rectangular prism perpendicular to its base, parallel to the front face. What shape is the cross section? (circle, triangle, square, or rectangle)

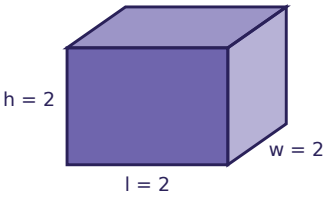

Cross Sections of 3D Figures · 11

A plane slices the square pyramid perpendicular to its base, through its tip. What shape is the cross section? (circle, triangle, square, or rectangle)

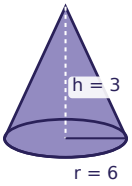

Cross Sections of 3D Figures · 12

A plane slices the cube parallel to its top face. What is the area of the cross section in square units?

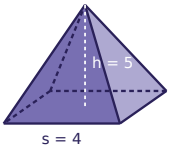

Cross Sections of 3D Figures · 13

A plane slices the cone perpendicular to its base, through its tip. What is the area of the cross section in square units?

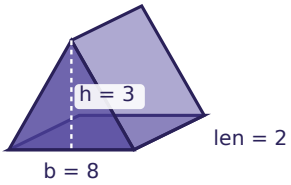

Cross Sections of 3D Figures · 14

A plane slices the square pyramid perpendicular to its base, through its tip, parallel to one side of the base. What is the area of the cross section in square units?

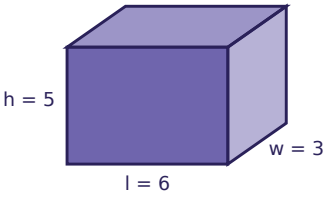

Cross Sections of 3D Figures · 15

A plane slices the triangular prism parallel to its triangular faces. What is the area of the cross section in square units?

Cross Sections of 3D Figures · 16

A plane slices the rectangular prism parallel to its base. What is the area of the cross section in square units?

A plane slices the triangular prism parallel to its triangular faces. What shape is the cross section? (circle, triangle, square, or rectangle)

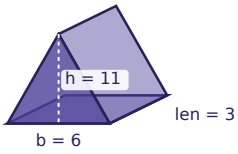

Cross Sections of 3D Figures · 18

A plane slices the cylinder parallel to its base. What shape is the cross section? (circle, triangle, square, or rectangle)

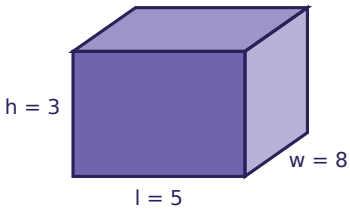

Cross Sections of 3D Figures · 19

A plane slices the triangular prism parallel to its rectangular bottom face. What shape is the cross section? (circle, triangle, square, or rectangle)

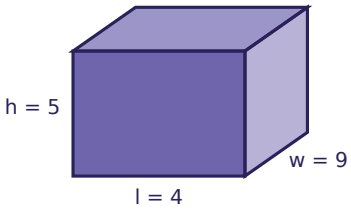

Cross Sections of 3D Figures · 20

A plane slices the rectangular prism parallel to the front face. What is the area of the cross section in square units?

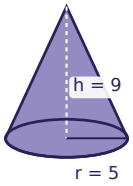

Cross Sections of 3D Figures · 21

A plane slices the rectangular prism parallel to the right side face. What is the area of the cross section in square units?

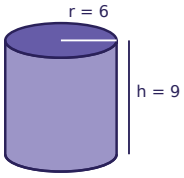

Cross Sections of 3D Figures · 22

A plane slices the cone perpendicular to its base, through its tip. What is the area of the cross section in square units?

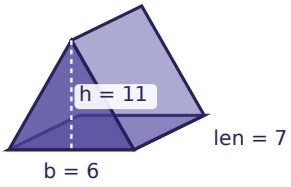

Cross Sections of 3D Figures · 23

A plane slices the cylinder parallel to its base. What is the area of the cross section in square units?

Cross Sections of 3D Figures · 24

A plane slices the triangular prism parallel to its triangular faces. What is the area of the cross section in square units?
