Task card 1 Probability Basics

A bag has 7 red, 9 blue and 6 green marbles. What is the probability of picking a green marble? (as a fraction)

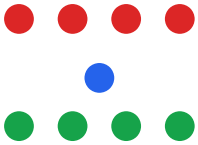

Task card 2 Probability Basics

A bag has 3 red, 5 blue and 4 green marbles. What is the probability of picking a blue marble? (as a fraction)

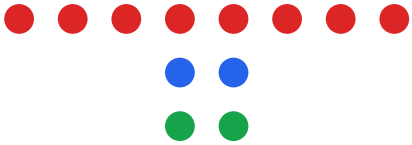

Task card 3 Probability Basics

A bag has 4 red, 1 blue and 4 green marbles. What is the probability of picking a red marble? (as a fraction)

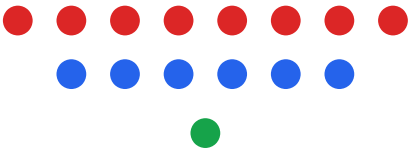

Task card 4 Probability Basics

A bag has 8 red, 2 blue and 2 green marbles. What is the probability of picking a blue marble? (as a fraction)

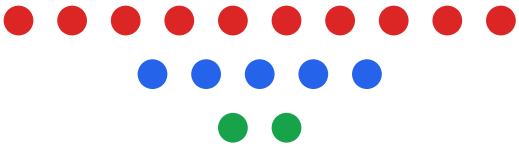

Task card 5 Probability Basics

A bag has 8 red, 6 blue and 1 green marbles. What is the probability of picking a green marble? (as a fraction)

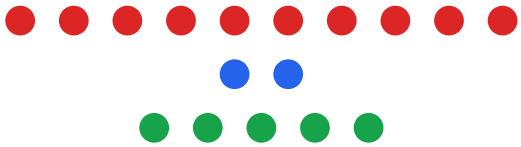

Task card 6 Probability Basics

A bag has 10 red, 5 blue and 2 green marbles. What is the probability of picking a green marble? (as a fraction)

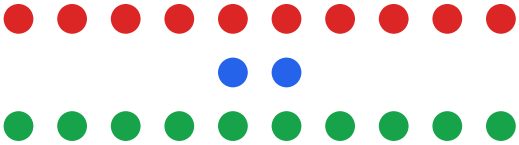

Task card 7 Probability Basics

A bag has 10 red, 2 blue and 5 green marbles. What is the probability of picking a red marble? (as a fraction)

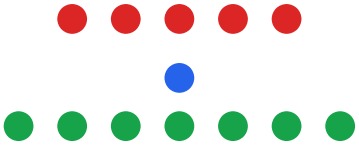

Task card 8 Probability Basics

A bag has 10 red, 2 blue and 10 green marbles. What is the probability of picking a green marble? (as a fraction)

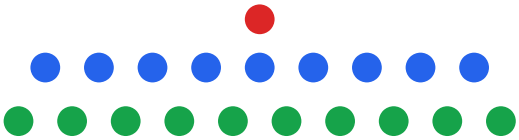

Task card 9 Probability Basics

A bag has 5 red, 1 blue and 7 green marbles. What is the probability of picking a blue marble? (as a fraction)

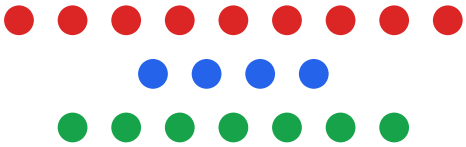

Task card 10 Probability Basics

A bag has 1 red, 9 blue and 10 green marbles. What is the probability of picking a red marble? (as a fraction)

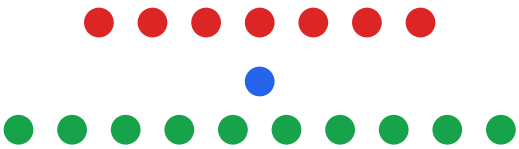

Task card 11 Probability Basics

A bag has 9 red, 4 blue and 7 green marbles. What is the probability of picking a red marble? (as a fraction)

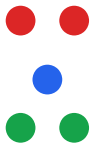

Task card 12 Probability Basics

A bag has 7 red, 1 blue and 10 green marbles. What is the probability of picking a green marble? (as a fraction)

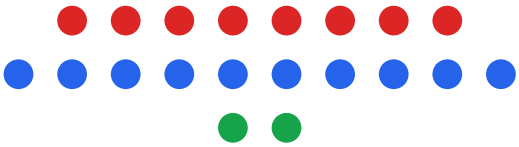

Task card 13 Probability Basics

A bag has 2 red, 1 blue and 2 green marbles. What is the probability of picking a red marble? (as a fraction)

Task card 14 Probability Basics

A bag has 8 red, 10 blue and 2 green marbles. What is the probability of picking a blue marble? (as a fraction)

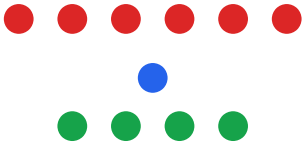

Task card 15 Probability Basics

A bag has 2 red, 3 blue and 9 green marbles. What is the probability of picking a green marble? (as a fraction)

Task card 16 Probability Basics

A bag has 6 red, 1 blue and 4 green marbles. What is the probability of picking a blue marble? (as a fraction)

Task card 17 Probability Basics

A bag has 2 red, 7 blue and 9 green marbles. What is the probability of picking a red marble? (as a fraction)

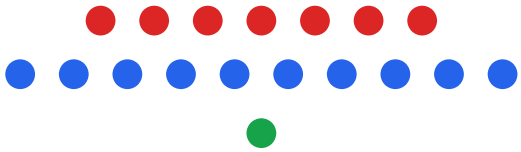

Task card 18 Probability Basics

A bag has 2 red, 5 blue and 1 green marbles. What is the probability of picking a red marble? (as a fraction)

Task card 19 Probability Basics

A bag has 7 red, 10 blue and 1 green marbles. What is the probability of picking a red marble? (as a fraction)

Task card 20 Probability Basics

A bag has 7 red, 1 blue and 5 green marbles. What is the probability of picking a red marble? (as a fraction)

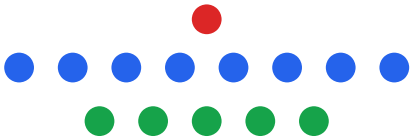

Task card 21 Probability Basics

A bag has 1 red, 1 blue and 9 green marbles. What is the probability of picking a red marble? (as a fraction)

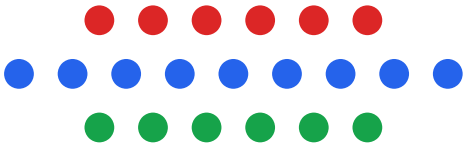

Task card 22 Probability Basics

A bag has 1 red, 8 blue and 5 green marbles. What is the probability of picking a red marble? (as a fraction)

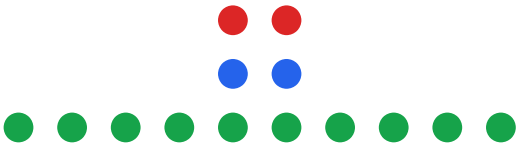

Task card 23 Probability Basics

A bag has 6 red, 9 blue and 6 green marbles. What is the probability of picking a blue marble? (as a fraction)

Task card 24 Probability Basics

A bag has 2 red, 2 blue and 10 green marbles. What is the probability of picking a blue marble? (as a fraction)

Probability Basics Task Cards

Recording sheet · Grade 7 · Write each probability as a fraction in simplest form.

Name: _____ Date: _____

Scan to check your answers

1	2	3	4
5	6	7	8
9	10	11	12
13	14	15	16
17	18	19	20
21	22	23	24

Probability Basics Task Cards: Answer Key
