Task card 1 Finding Domain & Range

The mapping diagram shows a function. What is its range?

Task card 2 Finding Domain & Range

Write the domain of the function graphed below as an inequality.

Task card 3 Finding Domain & Range

$f(x) = 2x + 1$ for $-5 < x \leq 1$. Find the range.

Task card 4 Finding Domain & Range

Find the domain of $f(x) = \sqrt{(3x + 21)}$.

Task card 5 Finding Domain & Range

Which x-value is not in the domain of $f(x) = \frac{9}{2x - 2}$?

Task card 6 Finding Domain & Range

Find the range of $f(x) = -\sqrt{(x - 6)} - 6$.

Task card 7 Finding Domain & Range

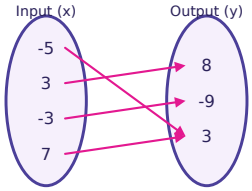

Find the range of $f(x) = 2x^2 + 8$.

Task card 8 Finding Domain & Range

Find the domain of the relation {(-8, 9), (9, 4), (-7, -1), (2, 9), (7, 5)}.

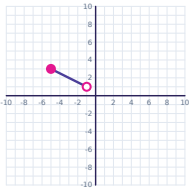

Task card 9 Finding Domain & Range

The mapping diagram shows a function. What is its range?

Task card 10 Finding Domain & Range

Write the range of the function graphed below as an inequality.

Task card 11 Finding Domain & Range

$f(x) = 3x + 2$ for $0 < x \leq 5$. Find the range.

Task card 12 Finding Domain & Range

Find the domain of $f(x) = \sqrt{(4x - 36)}$.

Task card 13 Finding Domain & Range

Which x-value is not in the domain of f(x) $= \frac{2}{4x - 20}$?

Task card 14 Finding Domain & Range

Find the range of $f(x) = -\sqrt{(x - 8)} - 4$.

Task card 15 Finding Domain & Range

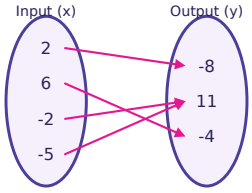

Find the range of $f(x) = 3x^2 - 1$.

Task card 16 Finding Domain & Range

Find the domain of the relation {(-2, 7), (-5, 7), (5, 1), (7, -4), (-1, -8)}.

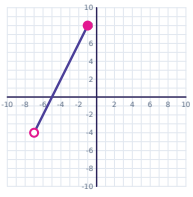

Task card 17 Finding Domain & Range

The mapping diagram shows a function. What is its range?

Task card 18 Finding Domain & Range

Write the domain of the function graphed below as an inequality.

Task card 19 Finding Domain & Range

$f(x) = -x + 3$ for $-4 < x \leq 1$. Find the range.

Task card 20 Finding Domain & Range

Find the domain of $f(x) = \sqrt{(4 - x)}$.

Task card 21 Finding Domain & Range

Which x-value is not in the domain of $f(x) = \frac{5}{2x + 10}$?

Task card 22 Finding Domain & Range

Find the range of $f(x) = \sqrt{(x - 3)} + 1$.

Task card 23 Finding Domain & Range

Find the range of $f(x) = 2x^2 + 9$.

Task card 24 Finding Domain & Range

Find the domain of the relation {(-4, -8), (-8, -1), (6, -6), (-6, -1), (9, -2)}.

Finding Domain & Range Task Cards

Recording sheet · Grade 9 · Write a domain or range from a list as its numbers from least to greatest, separated by commas, like -2, 0, 5 (each number once). Write an interval with inequalities, like $x \geq 3$, $y \leq 4$ or $-2 \leq x < 5$ (x for a domain, y for a range). If a question asks which x-value is left out of the domain, write just that number.
