Systems of Linear Inequalities · 1

Is P(-3, -1) a solution of the system y < -x + 3 and y ≥ 3x? Answer yes or no.

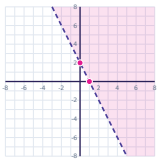

Systems of Linear Inequalities · 2

Is P(4, -3) a solution of the system y > 3x - 4 and y > -2x - 1? Answer yes or no.

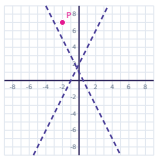

Systems of Linear Inequalities · 3

Write the inequality shown in the graph. The boundary line is dashed.

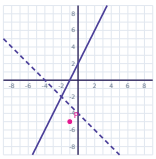

Systems of Linear Inequalities · 4

Is P(-2, 7) a solution of the system y > -2x + 1 and y < 2x + 2? Answer yes or no.

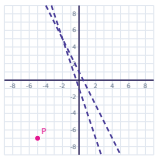

Systems of Linear Inequalities · 5

Is P(-1, -5) a solution of the system y < -x - 4 and y ≤ 2x + 2? Answer yes or no.

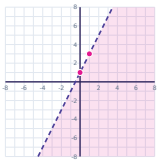

Systems of Linear Inequalities · 6

Is P(-5, -7) a solution of the system y > -2x + 1 and y < -3x - 1? Answer yes or no.

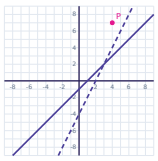

Systems of Linear Inequalities · 7

Write the inequality shown in the graph. The boundary line is dashed.

Systems of Linear Inequalities · 8

Is P(4, 7) a solution of the system y > 2x - 4 and y ≤ x - 1? Answer yes or no.

Systems of Linear Inequalities · 2

ANSWER

no

Systems of Linear Inequalities · 1

ANSWER

yes

Systems of Linear Inequalities · 4

ANSWER

no

Systems of Linear Inequalities · 3

ANSWER

y > -2x + 2

Systems of Linear Inequalities · 6

ANSWER

no

Systems of Linear Inequalities · 5

ANSWER

yes

Systems of Linear Inequalities · 8

ANSWER

no

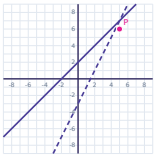

Systems of Linear Inequalities · 7

ANSWER

y < 2x + 1

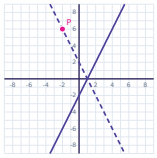

Systems of Linear Inequalities · 9

Is P(5, 6) a solution of the system y ≤ x + 2 and y < 2x - 3? Answer yes or no.

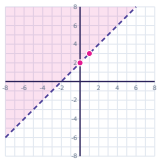

Systems of Linear Inequalities · 10

Is P(-2, 6) a solution of the system y > -2x + 2 and y ≤ 2x - 2? Answer yes or no.

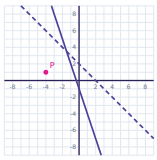

Systems of Linear Inequalities · 11

Write the inequality shown in the graph. The boundary line is dashed.

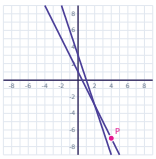

Systems of Linear Inequalities · 12

Is P(-4, 1) a solution of the system y ≥ -3x - 1 and y > -x + 2? Answer yes or no.

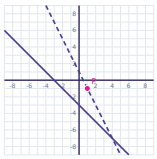

Systems of Linear Inequalities · 13

Is P(4, -7) a solution of the system y ≥ -2x + 1 and y ≥ -3x + 3? Answer yes or no.

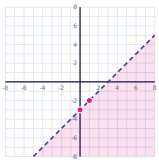

Systems of Linear Inequalities · 14

Is P(1, -1) a solution of the system y < -2x + 1 and y ≥ -x - 3? Answer yes or no.

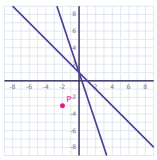

Systems of Linear Inequalities · 15

Write the inequality shown in the graph. The boundary line is dashed.

Systems of Linear Inequalities · 16

Is P(-2, -3) a solution of the system y ≥ -3x + 1 and y ≤ -x + 1? Answer yes or no.

Systems of Linear Inequalities · 10

ANSWER

no

Systems of Linear Inequalities · 9

ANSWER

yes

Systems of Linear Inequalities · 12

ANSWER

no

Systems of Linear Inequalities · 11

ANSWER

y > x + 2

Systems of Linear Inequalities · 14

ANSWER

no

Systems of Linear Inequalities · 13

ANSWER

yes

Systems of Linear Inequalities · 16

ANSWER

no

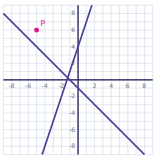

Systems of Linear Inequalities · 15

ANSWER

y < x - 3

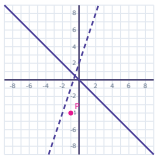

Systems of Linear Inequalities · 17

Is P(-5, 6) a solution of the system y ≥ 3x + 4 and y ≥ -x - 1? Answer yes or no.

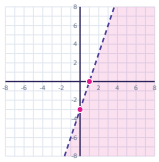

Systems of Linear Inequalities · 18

Is P(-1, -4) a solution of the system y < 3x + 2 and y ≥ -x? Answer yes or no.

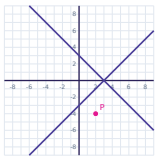

Systems of Linear Inequalities · 19

Write the inequality shown in the graph. The boundary line is dashed.

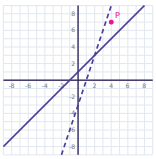

Systems of Linear Inequalities · 20

Is P(2, -4) a solution of the system y ≥ -x + 3 and y ≥ x - 3? Answer yes or no.

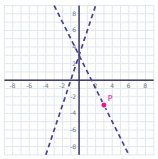

Systems of Linear Inequalities · 21

Is P(4, 7) a solution of the system y < 3x - 3 and y ≥ x + 1? Answer yes or no.

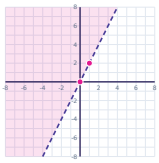

Systems of Linear Inequalities · 22

Is P(3, -3) a solution of the system y > -2x + 3 and y > 3x + 3? Answer yes or no.

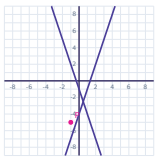

Systems of Linear Inequalities · 23

Write the inequality shown in the graph. The boundary line is dashed.

Systems of Linear Inequalities · 24

Is P(-1, -5) a solution of the system y ≤ -3x - 1 and y ≤ 3x - 4? Answer yes or no.

Systems of Linear Inequalities · 18

ANSWER

no

Systems of Linear Inequalities · 17

ANSWER

yes

Systems of Linear Inequalities · 20

ANSWER

no

Systems of Linear Inequalities · 19

ANSWER

y < 3x - 3

Systems of Linear Inequalities · 22

ANSWER

no

Systems of Linear Inequalities · 21

ANSWER

yes

Systems of Linear Inequalities · 24

ANSWER

no

Systems of Linear Inequalities · 23

ANSWER

y > 2x
